WOODLAWN NURSERIES

Rochester, N.Y.

1919

891 Garson Ave.

Corner Culver Rd.

ESTABLISHED

1876

FORTY THREE Yrs.

ALLEN L. WOOD, Propr.

TO OUR PATRONS—*Read Carefully*

HOW TO ORDER. In making out your order be particular to specify just what is wanted. Your name, post office and shipping point should be written plainly to avoid mistakes. If you are in doubt as to whether your stock should go forward by express or freight, you may leave it to us and we will use our best judgment. Very small packages can be forwarded by Parcel Post. Postage is required on orders to be sent by Parcel Post. Strawberries should be sent either by express or mail—not by freight.

TERMS. Cash with order. Your order may be accompanied with your check, a postoffice or express money order, draft or cash. If you send cash we would advise you to send same by registered mail. We will ship trees and plants C. O. D. providing 25% of the total of your order is sent in cash.

RELIABILITY. For forty-two years we have devoted our time to the growing of high grade nursery stock and have striven toward building up a business that would enable us to list ourselves among the foremost nurserymen in the country. As to our reliability we are pleased to refer you to Dun's or Bradstreet's or any bank or business house in Rochester.

SHIPPING SEASONS. The spring shipping season usually commences here about March 15th and continues until about May 1st. Of course the time of shipping your stock depends on your location. We commence making southern shipments about January 1st. The most important of all is to plant stock before the leaves start. Trees and plants should not be dug in the fall until they are dormant. The time they reach this state depends on the weather. Our usual fall season commences about October 1st and we continue to make shipments until the ground freezes. We advise Spring planting for berry plants and peach trees.

GROW YOUR OWN FRUIT IN THE BACK YARD

THE MONROE GARDEN COLLECTION

Make the back yard pay

Why buy fruit, when you can grow it yourself? Plant a MONROE Garden and produce your own.

Methods for Planting an Orchard

There are two ways to set an orchard. The old square way, where trees are planted on the four corners of a square, and the new way where trees are planted on the three corners of an equal-sided triangle. This new method is becoming more popular every year. It permits cultivation in three ways and gives you more trees to the acre.

	Old Method	New Method
Trees planted 30 ft. apart each way,	49 to acre	58 to acre
" " 24 ft. " " " "	75 " "	90 to acre
" " 20 ft. " " " "	108 " "	128 to acre

Fillers may be planted between the permanent trees in either method.

The Old Square Method

The New Triangular

Distance for Planting

Apples, Standard.....	30 to 40 ft.	Grapes.....	8 by 10 ft.
Apples, Dwarf.....	8 to 10 ft.	Currants.....	3 by 5 ft.
Pears, Standard.....	18 to 20 ft.	Gooseberries.....	3 by 5 ft.
Pears, Dwarf.....	10 ft.	Raspberries, Red.....	3 by 6 ft.
Peaches.....	16 to 18 ft.	Raspberries, Black.....	3 by 6 ft.
Nectarines and Apri-		Blackberries.....	5 by 7 ft.
cots.....	16 to 18 ft.	Strawberries, rows.....	1 by 4 ft.
Cherries, Sweet.....	18 to 20 ft.	Strawberries in	
Cherries, Sour.....	15 to 18 ft.	beds.....	1½ by 1½ ft.
Plums.....	16 to 20 ft.	Asparagus, in beds.....	1 by 1½ ft.
Quinces.....	10 to 12 ft.	Asparagus, in field.....	1 by 3 ft.

Trees and Plants to the Acre

2 feet each way.....	10,890	15 feet each way.....	194
3 feet each way.....	4,840	18 feet each way.....	135
4 feet each way.....	2,723	20 feet each way.....	110
5 feet each way.....	1,742	25 feet each way.....	70
6 feet each way.....	1,210	30 feet each way.....	48
8 feet each way.....	680	33 feet each way.....	40
10 feet each way.....	430	40 feet each way.....	28
12 feet each way.....	302		

To estimate the number of plants required for an acre, at any given distance, multiply the distance between the rows by the distance between the plants, which will give the number of square feet allotted to each plant, and divide the number of square feet in an acre (43,560) by this number, the quotient will be the number of plants required.

Planting directions accompany each Notice of Shipment

Details of Setting Young Trees

The work of planting is made comparatively easy by the opening of a furrow with a plow for the rows and cross-checking to indicate the points at which to set the trees. When planting, cut back the top to a point where the future head is to be formed, smooth off the ends of all the bruised and broken roots, then set, at the point in the row indicated by the cross-check, straighten the roots out into a natural position; fill in among them firmly, fine dirt, and tramp all down with the foot. It is best to set the trees an inch deeper than they were in the nursery row, leaning them slightly to the west or southwest, to brace them against prevailing winds. By this position the top will soon shade and protect the bodies from the intense heat of the summer sun, which is likely to cause sun scald. After the planting of the orchard is completed, the open furrows between the trees may be filled up by plowing one or more furrows against the row. The second year the young shoots are usually cut back again.

Trimming

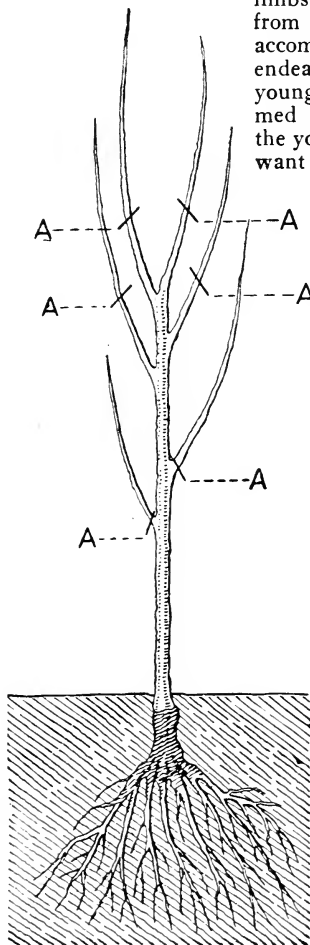

It is surprising how many orchards you see planted out with the young trees left with the full amount of

limbs on, just as they came from the nursery. By the accompanying drawing we endeavor to show how a young tree should be trimmed and planted. Trim the young tree the way you want it to grow. If a low

headed tree is preferred, cut back the top leaving such limbs as you may want. In the drawing we have shown the most popular way of trimming young trees. This generally gives a medium height tree very well formed.

The cross lines marked "A" on the limbs show where the cut should be made. The two lower limbs are too low to be left on and should be cut off close to the trunk as marked by the lines "A." If more attention is given to the planting, trimming and care of nursery stock, the grower will have better results.

All of our fruit trees, except Peaches, are two years old when they leave the nursery. Peaches are one year old.

WOODLAWN NURSERIES

SPRAYING CALENDAR

Recommended by New York Agricultural Experiment Station, Geneva, N. Y.

	1st Application	2nd Application	3rd Application	4th Application
Apples	Before buds open in the spring use Lime-Sulphur solution, 32°B., 1-8.	As blossoms show pink apply Lime-Sulphur 1-40 to which add 3 lbs. Arsenate of Lead.	When blossoms drop, repeat (2).	Two or three weeks after (3) repeat (2).
Cherries	Spray as for plums for San Jose Scale and Curculio.			
Currants	Bordeaux mixture and Lead Arsenate 4 lbs. to 50 gallons as soon as worms appear.	Repeat (1) any time worms become numerous.	As fruit colors substitute Hellebore for the Lead Arsenate.	
Pears	Same as for apples, add Black Leaf 40 for Psylla using $\frac{3}{4}$ pint to 100 gal. dilute Lime-Sulphur solution.	As cluster buds separate at the tips, apply Lime-Sulphur solution 1-8 to kill psylla eggs.	As petals drop apply the Bordeaux-Lead Arsenate-Nicotine combination spray in the usual proportions.	If necessary repeat (3), Bordeaux may be omitted on varieties not attacked by scab.
Plums	Spray as for apples for San Jose Scale.	When "husks" or calyces drop apply Arsenate of Lead for Curculio. For Leaf Spot on European varieties use Bordeaux mixture 4-4-50.	For Leaf Spot repeat Bordeaux in about 10 days. Japanese varieties should be sprayed as directed for peaches.	
Peaches	Before buds swell apply Lime-Sulphur solution 1-8.	As calyces drop apply Lead Arsenate for Curculio. Self-boiled Lime-Sulphur can be used as a carrier to control scab and Brown Rot.	Two or three weeks after (2) use self-boiled Lime-Sulphur and 2 lbs. of Lead Arsenate.	About one month before fruit ripens repeat (3) omitting the lead.
Quinces	Spray as for apples.	Spray as for apples.	Repeat (2).	Repeat (2)
Gooseberries	As leaves open apply Lime-Sulphur 1-40.	Repeat (1) in two weeks, add Lead Arsenate if worms appear.	Repeat (1) in two weeks.	Repeat (1) two weeks later if necessary.
Grapes	For "Steely Beetle" spray before buds open, when beetles appear with 6 lbs. Lead Arsenate, 2 gals. of poor molasses, 100 gals. water.	For Rose Chaper repeat (1) if beetles appear, using 8 lbs. of Lead Arsenate. For Root-worm use (1) about one week after beetles appear. Bordeaux mixture may be used as a carrier to control Brown Rot.	For Root-worm spray one week after (1), using (1) in Bordeaux mixture. This is also good for Berry Moth.	For Berry Moth spray about 10 days later with (3). For Leaf Hopper use Black Leaf 40- $\frac{1}{4}$ pint to 100 gallons of Bordeaux mixture during July, when nymphs appear.

FORMULAS FOR SPRAY MIXTURES

Commercial Lime-Sulphur Solution

Lime-Sulphur Solution (32°-34° B) : 1 gal.
Water : 8 to 9 gals.

There are a number of commercial preparations of Lime-Sulphur which have only to be diluted with water to prepare for use. For the treatment of scale and for summer spraying many orchardists prefer these to the home-made Lime-Sulphur solution.

Home-Made Concentrated Lime-Sulphur Solution

The home-made concentrated mixture is preferred by many fruit-growers to the above wash. These may be used cold, are storable, and therefore available for use as convenient.

Lime { Pure CaO : 36 lbs.
If 95 per cent. pure : 38 "
If 90 : 40 "
Sulphur, high grade, finely divided : 80 "
Water : 50 gals.

Directions for making and using Concentrated Lime-Sulphur wash are given in Popular Bulletin 329-330, which may be obtained on application to the Geneva Station.

Self-Boiled Lime-Sulphur Mixture

Fresh Stone Lime : 8 lbs.
Sulphur : 8 lbs. Water : 50 gals.

Place lime in a barrel and pour on enough water to cover it. As lime begins to slake, stir in the sulphur, which has previously been sifted to get rid of lumps. Add water as needed to keep the mixture in form of rather thick paste at first, and then gradually to a thin paste. As soon as lime is well slaked add the full amount of water to prevent further cooking. The sulphur should not go into solution. Strain into spraying tank and apply.

Hellebore

White Hellebore : 1 oz. Water : 3 gals.
Apply when thoroughly mixed. It is important to have fresh powder

Kerosene Emulsion

Kerosene : 2 gals.
Fish-oil Soap : $\frac{1}{2}$ lb. Soft Water : 1 gal.

Dissolve the soap, which has been finely divided, in one gal. of boiling water. Remove the vessel from the stove and add the oil. Then agitate the mixture violently for from 3 to 5 minutes by pumping into itself under high pressure until a creamy mass is formed, from which the oil does not separate. Fruit growers are advised not to employ an emulsion which shows a separation of the oil, as application of such preparations may cause injuries to the trees. This is used with success by some growers for summer spraying at a dilution of one gallon of the emulsion to eight gallons of water.

Nicotine Extract

Tobacco Extract (Black Leaf 40) : $\frac{3}{4}$ pint
Water : 100 gals. Soap : 3-5 lbs.

Nicotine may also be used in combination with the diluted lime-sulphur sprays. In such instances the soap should be omitted. For special insects use as directed in table.

Bordeaux Mixture

Copper Sulphate : 2-5 lbs.
Stone Lime : 2-5 lbs. Water : 50 gals.

Dissolve the Copper Sulphate in 2-5 gals. of water. This may be quickly done by suspending the material in a bran sack over the side of the container so that it comes in contact with the water. In a separate vessel slake the lime slowly, being careful not to let it become dry. Add the necessary amount of water to the lime and agitate thoroughly; allow it to settle somewhat and then add the Copper Sulphate solution, stirring vigorously meanwhile. Use wooden containers only.

Arsenate of Lead

Lead Arsenate : 3 lbs. Water : 50 gals.
Lime-Sulphur solution or Bordeaux mixture may be used as a carrier for the lead.

WOOD'S RELIABLE APPLE TREES

Are true to name because they are budded from bearing trees.

PRICES OF TWO-YEAR-OLD APPLE TREES

(Except Woodlawn Golden Pippin) See Descriptions

	Each	Ten	Hundred
5 to 7 ft., XXX Grade	50c	\$4.00	\$35.00
5 to 6 ft., XX	40c	3.50	30.00

5 Trees at 10 rate; 50 at 100 rate

EXTRA LARGE SIZE TREES
THREE AND FOUR YEARS OLD,
75c EACH; \$6.00 PER TEN.

SUMMER VARIETIES

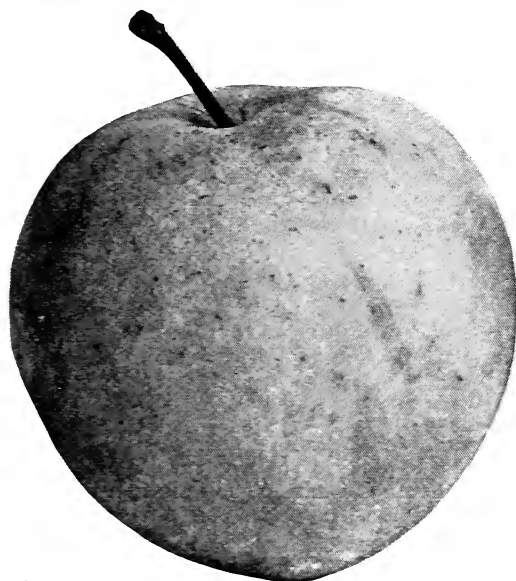

- ✓ **Early Harvest**—Medium size; pale yellow.
- ✓ **Red Astrachan**—A very handsome summer variety, rather acid in flavor.
- ✓ **Sweet Bough**—Fruit is large; pale yellow.

Wealthy

✓ **Wealthy**—Fruit is large, with a pale yellow skin blushed and marked with stripes and splashes of red; very attractive. The flesh is white, sometimes stained with red; fine, crisp, tender, and juicy. We recommend this as being the best for use as a filler in orchards.

WINTER VARIETIES

Yellow Transparent

✓ **Yellow Transparent**—Earliest of all Apples. Color when ripe pale yellow; mild, yet of sprightly flavor; good quality and of decided merit. Tree bears abundantly at a very early age. Three year trees frequently produce fine fruit. It should be in every home garden. Season, July.

AUTUMN VARIETIES

✓ **Duchess of Oldenburg**—Red striped; tender and juicy. The fruit brings a high price on the market.

✓ **Fameuse (Snow)**—One of the finest dessert Apples.

✓ **Maiden Blush**—Pale yellow with red cheek.

✓ **Gravenstein**—This is a large, handsome Apple streaked and splashed with red over a strong yellow, crisp, tender and juicy.

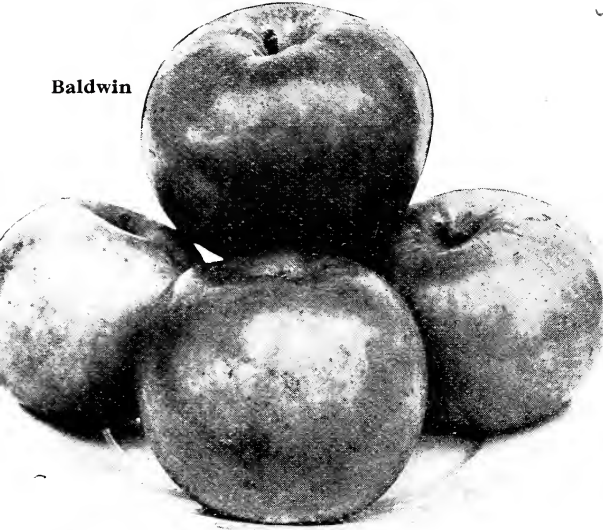

Delicious

✓ **Delicious**—A remarkable variety rapidly taking first rank both for commercial and home orchards. No new variety has ever so quickly gained popularity in so many different apple sections of our country. Fruit large, nearly covered with brilliant dark red, flesh finely grained, crisp and melting, juicy with a delightful aroma; of very highest quality. A splendid keeper and shipper.

✓ **King**—A superb red Apple of the largest size and finest quality.

WOODLAWN NURSERIES

Baldwin

✓ **Northern Spy**—The fruit is large and attractive, being of a bright red color. Flesh is very juicy, crisp and tender. This variety ranks about third in commercial importance with the fruit growers of New York, Pennsylvania and Ohio, being surpassed by Baldwin and Rhode Island Greening.

✓ **Jonathan**—Medium size; red and yellow; tender, juicy and rich; very productive. One of the best varieties either for table or market.

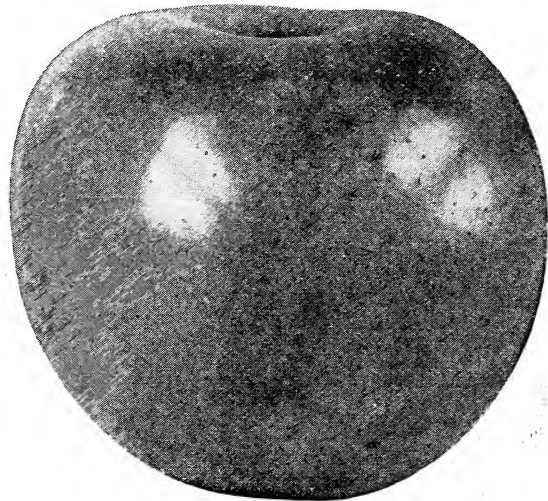

✓ **Twenty-Ounce**—A very large, showy, striped Apple of fair quality. A spreading grower, and fine bearer; excellent for baking.

✓ **Rambo**—Medium size; yellow and red; tender, juicy, mild. A vigorous grower and good bearer.

✓ **Baldwin**—The Baldwin is the leading commercial variety in the orchards of New York, Pennsylvania and Ohio. It is the standard fruit in the American markets and is one of the leading Apples used in cold storage for the export trade. It is a large, red winter Apple and is very desirable on account of its size, color and quality. Fruit keeps in common storage until April.

✓ **Golden Russet**—Medium size, dull russet, with a tinge of red; flesh greenish, crisp and juicy.

✓ **Ben Davis**—A very early bearer and one of the best keeping Apples on the market to-day, lasting in cold storage until June.

Woodlawn Golden Pippin

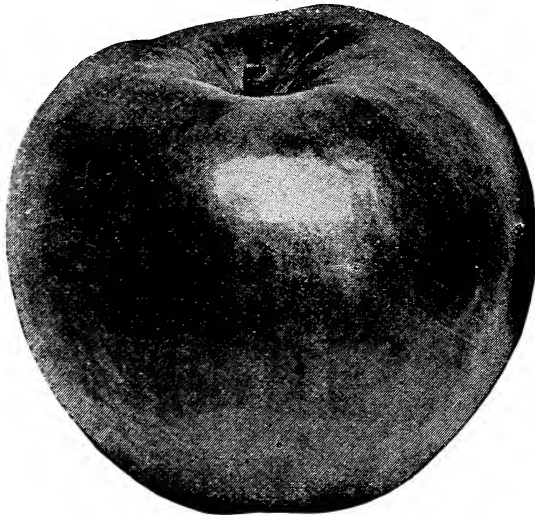

✓ **Woodlawn Golden Pippin**—Is one of the very best varieties. The Apple is golden yellow, with a delicious flavor. The flesh is firm, crisp and juicy. It is the best Apple for baking that can be grown. The tree bears at an early age—one of the best keepers, and one of the last Apples on the market in the spring. It should be in every garden. Price, 50c each; \$4.50 per 10.

✓ **Rome Beauty**—A large, smooth, uniform sized Apple beautifully shaded and striped with red. It is an annual bearer and coming into great prominence in all parts of the country. Its fine quality and handsome appearance make Rome Beauty bring the highest prices on all markets.

✓ **Tolman Sweet**—Splendid sweet winter Apple. Yellow in color with a faint blush cheek.

✓ **Winesap**—Medium size; deep red; good quality. Abundant bearer and valuable commercial sort.

✓ **Stayman Winesap**—Medium to large; uniform in size and shape; red tinged with yellow. The flesh is crisp, juicy and tender. It is one of the best of all commercial varieties for south of New York State.

Hubbardston Nonesuch

Hubbardston Nonesuch—Large, roundish, smooth Apple with a yellow skin mottled and splashed with bright red. The flesh is firm, finely grained, tender, crisp and juicy.

Spitzenburg—An Apple of superior excellence. Medium sized, completely covered with red. Flesh is tender, juicy, mild, sub-acid.

ALLEN L. WOOD, Rochester, N. Y.

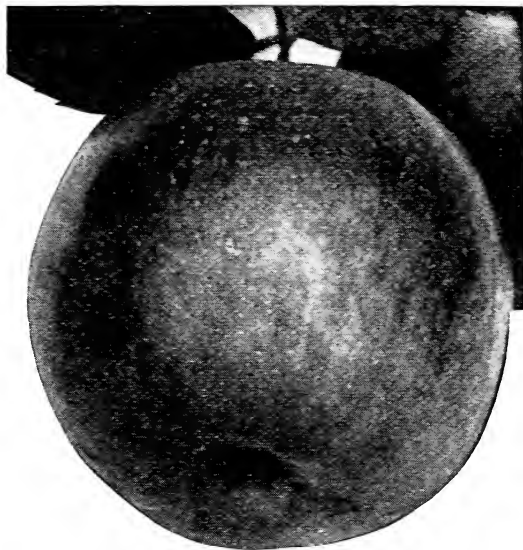

McIntosh Red—A very attractive Apple of a deep red color and of good uniform size. The flesh is white, firm, crisp and tender.

Northwestern Greening—Fruit medium to very large, with a smooth somewhat waxy, clear, pale yellow or greenish skin.

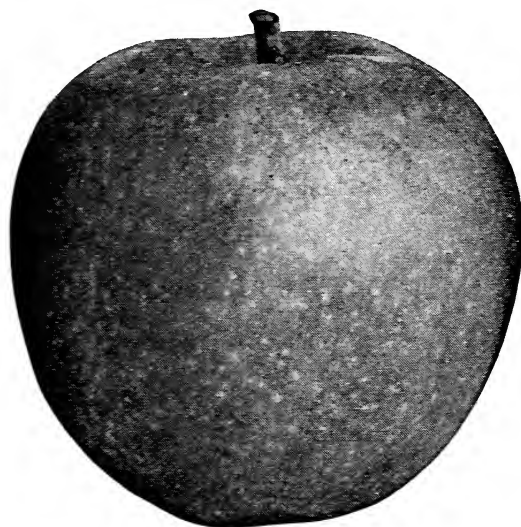

Grimes Golden—Beautiful, rich, golden yellow Apple with flesh that is tender, juicy, and fine. Early, an annual and good cropper; a vigorous and hardy grower.

Sutton Beauty—A large, roundish Apple with a waxy yellow skin striped with crimson. Flesh is tender, juicy, crisp and sub-acid. Tree is a vigorous grower and very productive.

Rhode Island Greening—Is of the highest quality and ranks next in popularity to the Baldwin.

Wagner

Winter Banana

Winter Banana—Fruit large, clear pale yellow with beautiful contrasting pinkish-red blush. Flesh is yellowish-white, tender, mild and sub-acid; flavored like a banana. Excels as a dessert Apple.

Stark—Large, striped yellow and red, juicy, mild sub-acid. An early and abundant bearer.

Wolf River—One of the largest of all Apples.

York Imperial—It is one of the leading Apples in Pennsylvania and the middle Atlantic States and over a belt of country extending west into Missouri and Kansas.

Wagner—A superior Apple. The color is a beautiful bright red with some contrasting pale yellow. It has a fine texture, high flavor, and excellent quality. Is especially esteemed for dessert. It is planted a great deal as a filler for orchards.

Crab Apple Trees

PRICES OF CRAB APPLE TREES

	Each	Ten
5 to 7 ft., XXX Grade	50c	\$4.00
✓ Hyslop —Large, deep crimson. Very popular.		
✓ Transcendent —Yellow with rich crimson cheek.		
✓ Whitney —Red; very hardy; a great bearer. Striped and blushed with bright red. It is a very handsome fruit.		

Dwarf Apple Trees

Dwarf Apples—Are very desirable for small gardens and can be planted six to eight feet apart. It is a great thing to be able to grow your apples on a small City lot. Dwarf Apples under good cultivation will commence to bear fruit the second year after being planted, and you can pick all your Apples from a step-ladder. But we do not recommend them for commercial orchards.

Price of Dwarf Apples 3 to 4 ft. and up, 50c each; \$4.00 per 10.

Best varieties of Dwarf Apples.

5 Trees at 10 rate; 50 at 100 rate			

EXTRA LARGE SIZE TREES
THREE AND FOUR YEARS OLD,
75c EACH; \$6.00 PER 10.

Bartlett

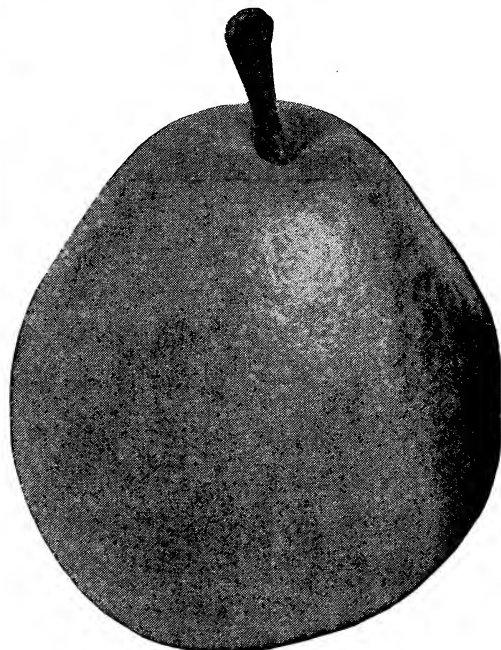

✓ **Bartlett**—The best and most popular of all Pears for market and home use. It is a rich golden yellow color when ripe, often with a soft blush on sunny side. It is very large, thin skinned; flesh buttery and melting, and has a rich musky flavor. The tree is a strong grower and bears young and abundantly. It requires careful cultivation to get the best results. Fruit should be thinned when small and should be picked just before it is ripe. Then it should be wrapped in paper, packed in tight boxes and placed in a cool cellar until ready for use. Season, August and September.

✓ **Clapp's Favorite**—This is without doubt the most productive pear in cultivation. It is of very large size; pale lemon yellow color with a bright crimson cheek. The flesh is finely grained, juicy, melting and buttery. A cross between Bartlett and Flemish Beauty; earlier than Bartlett and resembling Flemish Beauty in growth. The fruit should be picked at least ten days before it would ripen on the trees. Pears ready to pick in August and September.

✓ **Duchess (Angouleme)**—A young bearing tree, often fruiting the first season after planting. The fruit is large, frequently weighing a pound. It is of a dull greenish-yellow, spotted russett color. The flesh is white, rich and of very good quality. Season is October and November.

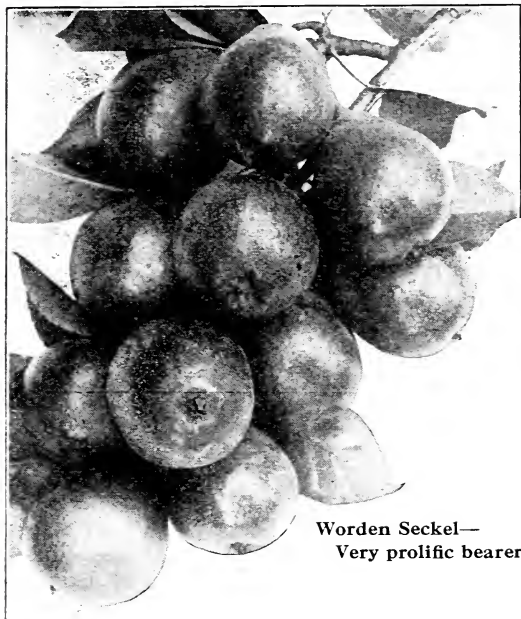

✓ **Vermont Beauty**—Tree hardy and vigorous, and abundant bearer. Fruit medium yellow with red cheek; rich, juicy, best quality. October.

✓ **Kieffer**—A popular Pear with fruit growers. Large, rich yellow, tinged with red, somewhat russet; very handsome. Flesh is white, buttery and juicy. Very valuable for canning purposes. Kieffer bears fruit when other kinds fail. Tree is a vigorous grower, early and regular bearer September to November.

Sheldon

✓ **Sheldon**—This is of very large size. It is roundish in shape and has a greenish-yellow color covered with light russet. It is very juicy, melting, and has a tasty flavor. The tree is a fine grower and a good bearer. Season is October and November.

Worden Seckel—
Very prolific bearer

Worden Seckel—This great Pear is a seedling of Seckel, but far surpasses it in size, color, form and beauty. Fruit is light golden in color with a deep red blush on sunny side. Tree is vigorous, very hardy and bears very young. It is an enormous producer. Ripens in October just after Seckel.

Seckel—Our most highly flavored Pear, the standard of excellence. Fruit small, yellowish brown, with a russet-red check.

Flemish Beauty—This is a pale yellow Pear almost covered with light russet, which becomes reddish-brown when ripe. The fruit is large, melting, sweet and rich. When perfect it is a superb Pear. The tree is very hardy, but needs sunny situations or the fruit will crack and scab. It is a great bearer and fruit ripens during September and October.

Dwarf Pear Trees

Each Ten Hundred
3 to 4 ft., XXX Grade 50c \$4.00 \$35.00
5 Trees at 10 rate; 50 at 100 rate

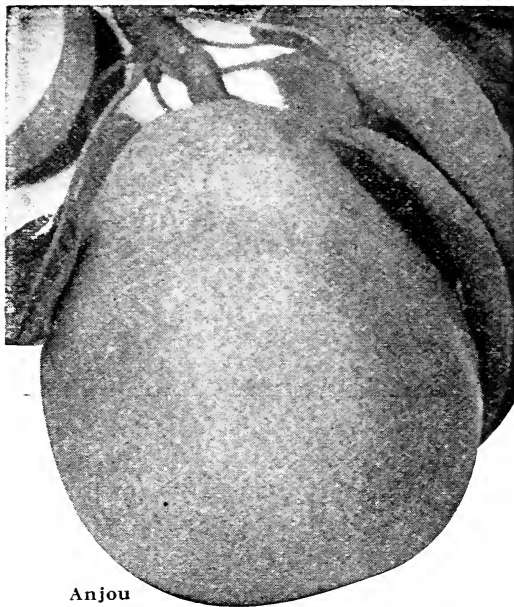

Bartlett—Dwarf Pears are similar to the standard fruit of the same variety, and are very profitable.

Beurre d'Anjou—A great money-making dwarf that should be extensively planted.

Clapp's Favorite—This is a very good dwarf variety which is used extensively for fillers in orchards, mainly Apple orchards.

Duchess—The most popular of all dwarfs and the one most widely grown. Duchess is a great yielder and a great money getter. The tree is hardy and thrifty and bears uniformly big crops.

Worden Seckel—Similar to the standard fruit of the same variety.

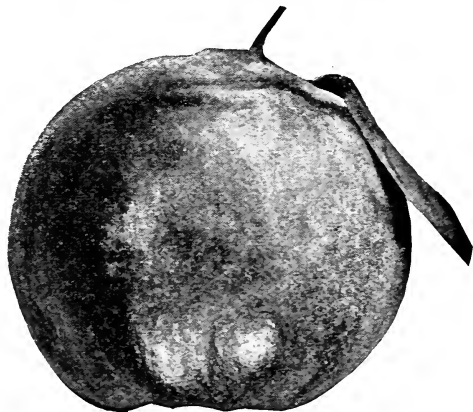

Anjou

Beurre d'Anjou—This is one of the most popular and valuable Pears one can buy. A large, handsome fruit, with a fine vinous flavor; buttery and melting. It is a fine keeper and will stay good until mid-winter.

QUINCE TREES

Each Ten Hundred
4 to 5 ft., XXX Grade 50c \$4.00 \$35.00
5 Trees at 10 rate; 50 at 100 rate

Orange

Orange—More largely planted than any other variety. Orange is large, bright golden yellow. Cooks very tender and has a fine flavor.

Champion—Will bear more quickly than any other variety. The fruit is large.

Rea's Mammoth—We consider this the best of all the Quinces. The largest and in every respect the finest variety of the Quince.

WOODLAWN NURSERIES

Montmorency Cherry Orchard in Blossom

CHERRY TREES

The Cherry is one of the most profitable, if not the most profitable of all the fruits that are grown. More and more the fruit growers of the country are taking up its culture and enormous profits are being realized from young orchards.

This variety of fruit tree requires so little care and cultivation that there is practically no cost of labor to keep up an orchard. Hence greater profits from the fruit.

We have for sale this year some of the finest trees of Cherries we have ever grown. We would advise our customers to place their order early.

PRICES OF SOUR CHERRIES

75c Each; \$6.00 Per Ten

Bender—The Bender Sour Cherry is the newest and best of all sours in size, color, quality and quantity. It ripens between Early Richmond and Montmorency. We have the exclusive right and control of the propagation and sale of the Bender Cherry.

Early Richmond—Is a wonderful bearer and cannot be surpassed for hardiness. The fruit is of medium size, roundish, dark red. Flesh is tender, juicy and sub-acid. The tree is vigorous and long lived. Excellent for canning and drying.

English Morello—Best late sour Cherry. Medium sized, very dark red color, sometimes nearly black. The flesh is of good quality and it being acid in flavor makes it valuable for canning and preserving. Tree is a small grower with light limbs and trunk. Fruit ripens about two weeks later than Montmorency.

Montmorency

Montmorency—A beautiful, large, red, sour Cherry. The fruit is clear, bright red and of good size. Flesh is of fine quality, subacid. The trees are clean growers and prolific bearers. No matter how unfavorable the season may be, Montmorency can be depended upon for a full crop. It is a good shipper, very attractive looking and always brings good prices. The canning factories use large quantities of them and the demand is greater than the supply. Fruit ripens ten days later than Early Richmond.

THERE IS MONEY IN CHERRIES

A two-year-old Cherry Tree will bear a gallon of Cherries. A ten-year-old tree will bear from 100 to 200 lbs. An acre will grow 100 trees, figuring 150 lbs. to the tree this acre will produce 15,000 lbs. If sold at 7c per lb., will bring a return of \$1,050 per acre.

WHY NOT PLANT CHERRIES?

Napoleon or Royal Ann

Napoleon or Royal Ann—This is one of the largest and best of all the Sweet Cherries. It is a magnificent variety, large, sweet, pale yellow, with a bright red check. It is a splendid shipper and fine for canning. To eat out of the hand it is unsurpassed. Flesh is very firm and juicy. The tree is a fine grower and an immense bearer.

Schmidt's Bigarreau—The fruit is of very large size, of a deep mahogany color. The flesh is dark, tender, very juicy, with a fine rich flavor. Fruit grows in clusters. It is an excellent shipper and brings good money on the market.

Windsor—The standard of excellence. It was brought over from Canada where it originated and is very hardy, very vigorous and prolific bearer. The fruit is large, liver colored and very handsome. The flesh is remarkably firm and of fine quality. It is the most valuable late sweet Cherry for family or commercial use.

Bing—Is a large, fine, black sweet Cherry. The flesh is juicy but firm, and a splendid shipper.

Bing Cherry trees, grown in Geneva, N. Y., produced fruit that measured three and one-half inches in circumference.

Black Tartarian—This is a large, black, heart-shaped, tender, juicy Sweet Cherry of surpassing quality. The tree is an upright, dense grower, remarkably vigorous and a regular bearer of immense crops.

Gov. Wood—One of the finest of the light colored Cherries. Fruit is large, tender, juicy and of fine quality. The tree is vigorous, productive and the best shaped of all the Cherries. Fruit ripens in June and hangs well on the tree.

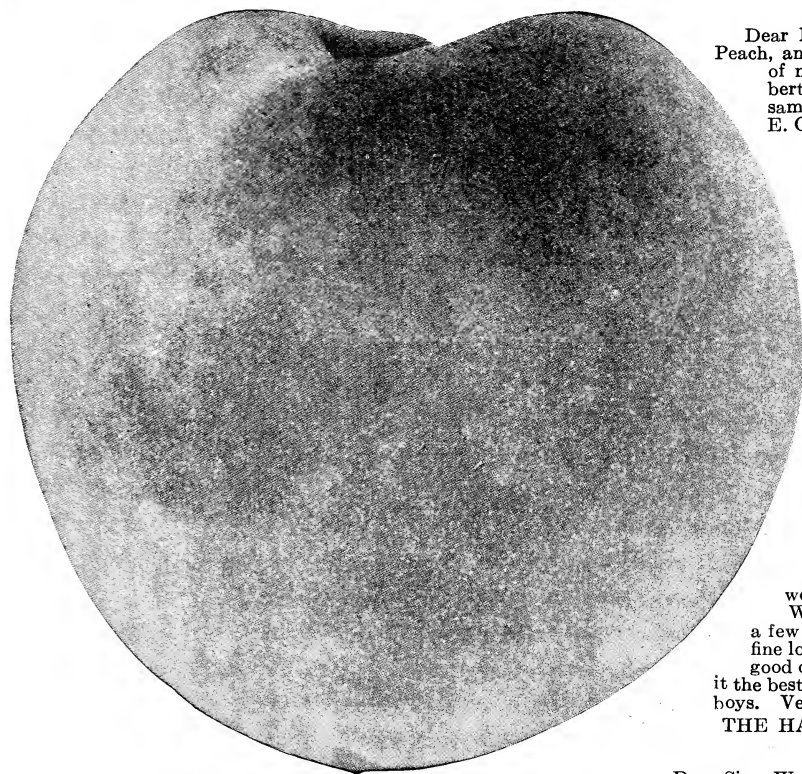

Lambert—A wonderful variety of the Sweet Cherries and one of the largest. The skin is dark, purplish-red, almost jet-black when ripe. Flesh is firm, rich and juicy. The tree is hardy.

Yellow Spanish—A pale yellow Cherry with a bright red cheek on sunny side. Flesh is firm, juicy and delicious. It is one of the best and most beautiful of all light colored Cherries.

THEY SHOULD BE IN EVERY GARDEN

St. Regis Raspberries—fruit all season; Columbian Purple Raspberries—fine for table; Red Cross Currants—the sweetest of all; Wood's Giant Black Currants—best of all blacks; Plum Farmer Black Raspberries—great; Snyder Blackberries—sweet to the core; Pearl Gooseberries—fine for cooking; Strawberry Rhubarb—see page 17; Monroe Strawberries—large and luscious. Concord Grapes—large, black, delicious; Niagara—white and sweet to center.

WOODLAWN NURSERIES

"Dr. Worcester" "The 20th Century Peach"

"Dr. Worcester" Peach is of very large size, averaging from $8\frac{1}{2}$ oz., to 10 oz. Six Peaches weighed 3 lbs., $2\frac{1}{2}$ oz. Fruit is of good color; flesh is yellow, firm and very juicy. The flavor of the "DR. WORCESTER" PEACH is its chief merit. It is rich and sugary with a full Peach flavor. *An old gentleman said: "It tastes just like the old-fashioned Crawford that I used to get when I was on the farm."* Fruit Growers who sampled this new Peach, pronounced it the best they ever tasted. The skin is not as thick as that of the Elberta, but is firm, making it a good shipper, it is also a *good keeper*. These qualities combine to make the "DR. WORCESTER" PEACH a most valuable commercial sort. The tree is a healthy, vigorous grower, and a good bearer. It is hardy and a late bloomer. (SEE BACK COVER)

Price, \$1.00 each; \$10.00 per dozen.

Only a limited quantity to offer.

We sell all "Dr. Worcester" Peaches under a special guarantee seal that is affixed to each tree or bundle of trees. We have the exclusive sale of the "Dr. Worcester" Peach.

Rochester, N. Y., Nov. 12, 1917.

My dear Mr. Wood: The "Dr. Worcester" Peaches which you sent me were sampled by the heads of the different departments of our Seed and Nursery establishment and all pronounced them the best and most delicious they have ever tasted. Apparently you have something in the Peach line extra good and worthy of introduction. Yours very truly, CHAS. H. VICK.

Mr. Vick is President of the James Vick's Seed Co.

Penn Yan, N. Y., Oct. 10, 1917.
Dear Mr. Wood: I have sampled the Peach, and pronounce it very good. It is of much better quality than the Elberta. Thanking you for letting me sample it, I remain Very truly yours,
E. C. GILLET, Sec'y of New York State Fruit Grower's Assn.

Rochester, N. Y., Nov. 10, 1917.

Dear Sir: I had the pleasure of sampling your new Peach "Dr. Worcester" and consider it one of the finest Peaches I ever tasted. Not only has the Peach a fine flavor, good size, and a free stone, but the meat is very solid and the skin firm enough to make it a good shipper. That is something many of our very good Peaches lack. In the "Dr. Worcester" Peach I think you have something that will soon lead all others in demand. Yours truly,

ROBERT LOVE.

Rochester, N. Y., Oct. 12, 1917.

Dear Sir: As per your request we give you our opinion of the "Dr. Worcester" Peach that you gave us a few days ago. We consider it a very fine looking Peach and an exceptionally good one in quality, in fact, we consider it the best that we have eaten since we were boys. Very truly yours,

THE HAWKS NURSERY COMPANY.

Sodus, N. Y., Oct. 10, 1917.

Dear Sir: We have your favor of October 9th, also the Peach which you call the "Dr. Worcester". We sampled it and it is not only a fine looking Peach, but has an excellent flavor. Yours truly,
B. J. CASE, Fruit Grower.

Brighton Station, Rochester, N. Y., Oct. 11, 1917.

Dear Sir: Your letter of the 9th and the "Dr. Worcester" Peaches reached me yesterday. I think they are the finest Peaches I ever tasted. They are very solid and firm and should be a good shipping Peach. Their flavor is far superior to the Elberta. I hope some day to be able to see this Peach in bearing as it looks mighty good to me. Thanking you for the sample, I remain Yours very truly,

EMERSON A. BABCOCK, Fruit Grower.

N. Y. C. & H. R. R. R. Commissary, New York City.
Oct. 20, 1917.

Dear Sir: I have sampled the "Dr. Worcester" Peach and can only express my opinion by saying that it is unexcelled in its line. It combines a luxuriant juice and an appetizing flavor that I have never tasted in any other Peach. Wishing you success, I am yours very truly,

CHAS. EATON.

San Francisco, Cal., Oct. 18, 1915.

Dr. J. W. Worcester,
Middletown, N. Y.

My dear Doctor: I received the sample of "Dr. Worcester" Peaches just before leaving the east for here. I divided with some of my neighbors and we all pronounced them the most delicious Peaches we ever had the pleasure of tasting. Surely some one ought to bud and sell the trees. Thanking you, I am yours very truly, CHAS. G. PORTER.

Mr. Porter is Superintendent of the Fruit Dept. at the New York State Fairs.

Rochester, N. Y., Oct. 16, 1917.

Dear Sir: The sample of your new Peach, "Dr. Worcester", which you showed us and which we sampled in our office recently, seems to be a fine acquisition to the list of Peaches. It was of good size and the flesh was yellow and firm indicating that it would stand shipping. It was also a perfect free-stone. From all we hear we think that it will be a Peach worth while cultivating. Yours truly,

C. M. HOOKER & SONS, Fruit Growers.

President

HISTORY OF THE "DR. WORCESTER" PEACH

In the Fall of 1890 Dr. Worcester of Middletown, N. Y., planted a bed of choice peach pits which he gathered from various sources. In 1892 he transplanted several of the strongest seedlings and in 1895, when these seedlings commenced to bear, all but one were cling-stones. On one of the trees he found several yellow and crimson peaches of enormous size and great beauty which were perfect free-stones. In 1896 this tree was heavily loaded with very large, beautiful peaches.

In 1897 Dr. Worcester sent two peaches to Mr. Chas. A. Green of Rochester, N. Y. Mr. Green's response was as follows:

"Thanks for the two peaches, which are, indeed, very large, very beautiful and of fine quality."

Mr. Green requested Dr. Worcester to send him the history of this peach.

In 1898 Dr. Worcester sent a basket of his seedling peaches to the American Institute of New York and they were so well pleased with them that they sent the doctor a Certificate of Merit.

Up to this time Dr. Worcester had only the original tree. In August 1899 he budded several trees to make a thorough test of this peach and continued to bud some each year.

My attention was called to this wonderful Peach in 1915 and for two seasons I went to see the trees while they were in bearing. The size and high quality of the fruit so greatly impressed me that I persuaded Dr. Worcester to permit me to bud it and offer it to the public.

2 to 3 ft., X	30c	2.50	17.50

5 Trees at 10 rate; 50 at 100 rate

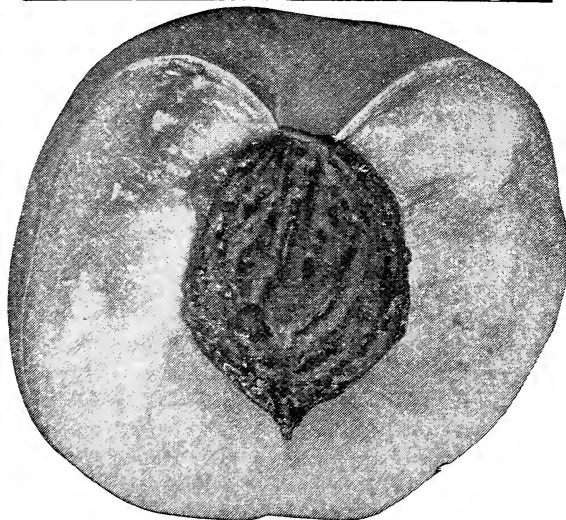

SPECIAL NOTICE

Last Winter was unusually severe on Peach Trees and a great many of the young trees were frozen and killed, for this reason our supply will be very limited and we suggest that our customers who expect to plant Peaches this season should order early before the supply is exhausted. Peach trees will not have the height of other years but will be more stocky thus making a more reliable tree to plant.

Hale

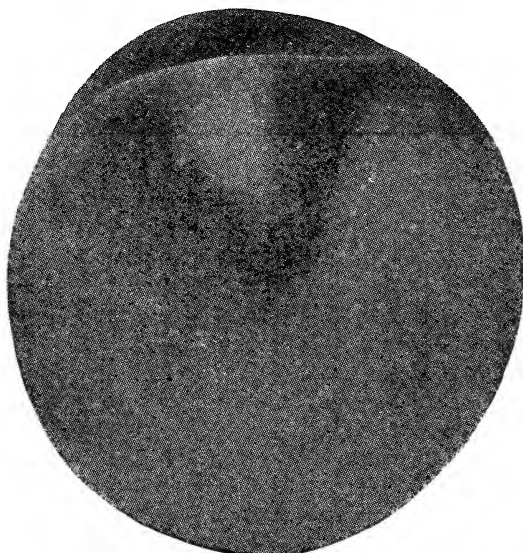

Hale—In size it is one-third larger than the Elberta and is more highly colored. The skin is deep crimson, smooth, tight, and without fuzz. Flesh is golden yellow, firm, and has a most delicious flavor. The pit separates easily from the flesh. It is exceptionally valuable as a commercial Peach owing to its unusual keeping and shipping qualities. Will ship nearly as well as an Apple. Fruit ripens about five days before the Elberta, but it will hang on the tree longer. Your collection is incomplete without this variety.

Woodlawn Golden

Woodlawn Golden—A new variety which we recommend for general culture. The fruit is large and highly colored; flesh is yellow, firm and flowing over with rich, finely flavored juice. Fine for canning as well as being the most desirable for eating from the hand. The tree is a strong grower and very productive. Perfect freestone. Ripens first of September.

Rochester—Is in a class by itself because it is the only good sized yellow freestone Peach of fine quality ready for market in the middle of August in the northern states. The fruit is large, yellow with a most attractive red blush; juicy and delicious and keeps well; an excellent shipper. Its greater sweetness over other Peaches requires only half the usual quantity of sugar in canning. The tree is a strong grower; early and regular bearer of big crops, and absolutely hardy; two weeks ahead of Early Crawford—maturing when highest market price prevails.

5 Trees at 10 rate; 50 at 100 rate

Belle of Georgia—Very large white Peach with red cheek; very productive.

Carman—A new hardy, rot-proof Peach ripening from the middle to end of July. Fruit is large, oval shaped, yellowish-white.

Champion—Large, handsome, creamy white with red cheek; sweet, rich, juicy.

Late Crawford—Very large and good; ripens here about the close of the Peach season.

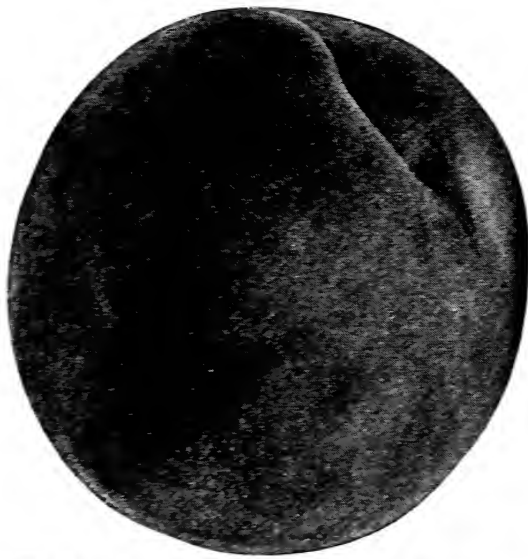

Early
Crawford

Early Crawford—A magnificent large yellow Peach of good quality. Its size, beauty and productiveness make it one of the most popular sorts; no other variety has been so extensively planted. First of September.

Niagara—Fruit is a beautiful golden yellow blushed with brilliant red. Resembles the Early Crawford, but is larger in size.

Greensboro—The largest and most beautifully colored of all the early varieties. Flesh white, juicy and good. Its large size, attractive appearance and reliability in bearing combine to make it one of the best of its season. July.

Elberta—The Greatest Money-Maker of Them All

Elberta—The greatest commercial Peach on the market today. This variety is the most popular all over the country and there are more of these planted than of any other kind. It is undoubtedly the best orchard kind and also is valuable for garden planting.

Crosby—One of the hardiest; abundant bearer; medium size; bright yellow; fine quality. Ripens about the middle of September.

Fitzgerald—Fully equal to Early Crawford in size, quality and color, with much smaller pit; a very early bearer.

Yellow St. John—This is a large handsome Peach and very popular wherever it is grown. The flesh is yellow, rich and juicy. The flavor is equal to that of the Crawford. It ripens the latter part of July.

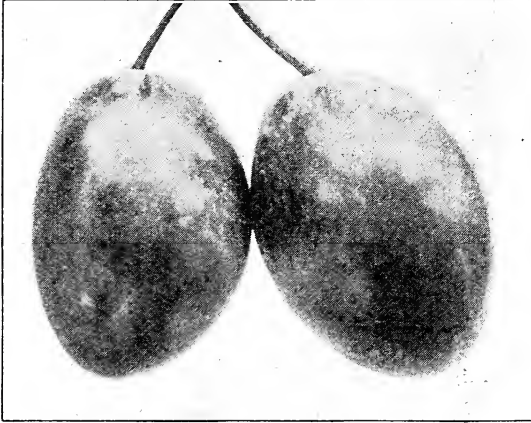

Lamont

Lamont—Comes on the market when nearly all of the other Peaches are gone. Fruit large, as good in quality as Early Crawford.

PLUM TREES

Liberty Prune

Liberty Prune (formerly Wood's Improved German Prune)—Best of all Prunes for drying. This is a strain of the old German Prune which we have improved until we now can offer one that is larger, more uniform in size, than the old variety. Flesh is juicy, rich, delicious and very productive. September.

Bradshaw

Bradshaw—Very large; dark violet red; flesh yellow, juicy, good. Valuable market sort. August.

Felleberg (Italian or French Prune)—Purple; juicy, and delicious. Very fine and an excellent commercial sort. September.

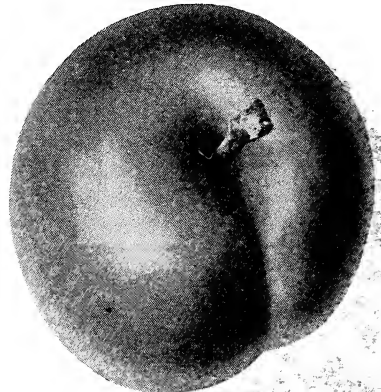

Shropshire Damson—A medium sized, dark purple variety; very fine for preserving. Fruit sells well on the market. The tree is hardy and very prolific. Ripens in October.

✓ **Abundance**—The fruit is large, showy and beautiful. It has a bright cherry-red color. The flesh is yellow, firm, juicy, sweet and very delicious. Stone is small and parts freely from the flesh. August.

✓ **Imperial Gage**—Large, oval, greenish, juicy, rich and delicious; parts from the stone. Very productive and one of the best. August.

✓ **Lombard**—A reddish Plum. It is a great favorite because it is a wonderful and early bearer and a hardy grower. Fruit hangs so thickly on the trees that it must be thinned. August.

✓ **Red June (Japan)**—This variety is just as productive as Abundance; fruit medium to large, deep vermilion-red with handsome bloom, very showy; flesh light lemon-yellow, slightly sub-acid. Ripens last of July.

Burbank

✓ **Burbank**—This variety is very much like the Abundance, except that it is much deeper in color, and ripens from ten to fourteen days later. It is one of the handsomest Plums on the market and always finds a ready sale. The fruit is large, reddish-purple; flesh yellow, juicy and good. Tree is very hardy and vigorous. It will withstand the frost better than most varieties. August.

✓ **Reine Claude**—A delicious greenish-yellow Plum, spotted with red. It is of the finest quality and the housewife's ideal Plum for canning and preserving. One of the finest for quality, beauty and size. Ripens in September.

✓ **Shipper's Pride**—Large; dark purple; quality fine, juicy and sweet. Excellent for canning. September.

✓ **Wickson**—Very large; deep red with white bloom; flesh firm, juicy. Remarkably long keeping qualities and an excellent commercial sort. September.

✓ **Yellow Egg**—A large and beautiful variety fine for cooking purposes. August.

APRICOT TREES

XXX Grade, 50c each; \$4.50 per Ten

Budd—Fruit white with red cheek. An immense bearer. Best late variety. August.

Moorpark—One of the largest. Yellow with red cheek, firm, juicy and very productive. An old and dependable variety. August.

ASPARAGUS (2 years old)

Barr's Mammoth

To make a good Asparagus bed, prepare a plot of fine, loamy soil, to which has been added a liberal dressing of good manure. Set the plants 12 inches apart in the row and the rows 20 inches apart.

Price 10 for 25c; 25 for 50c; 100 for \$1.25; 1000 for \$6.00. If sent by mail add 5c for 10; 15c for 50; 25c for 100

Barr's Mammoth—Robust and vigorous and throws large shoots which remain white above ground as long as they are fit for cutting.

Conover's Colossal—This variety is remarkably tender and finely flavored.

Palmetto—Anearly and great yielder and very even and regular in growth. It has been tested both North and South and has proved entirely successful in every way.

RHUBARB - PIEPLANT

Wood's Strawberry Rhubarb

2 year old plants
Strawberry Rhubarb
all the year

You can have Early Strawberry Rhubarb throughout the entire year. Cut stalks of young Rhubarb into small pieces. Put these into fruit jars. Fill jar with cold water and seal up tightly. This will keep you in fresh Early Strawberry Rhubarb the entire year.

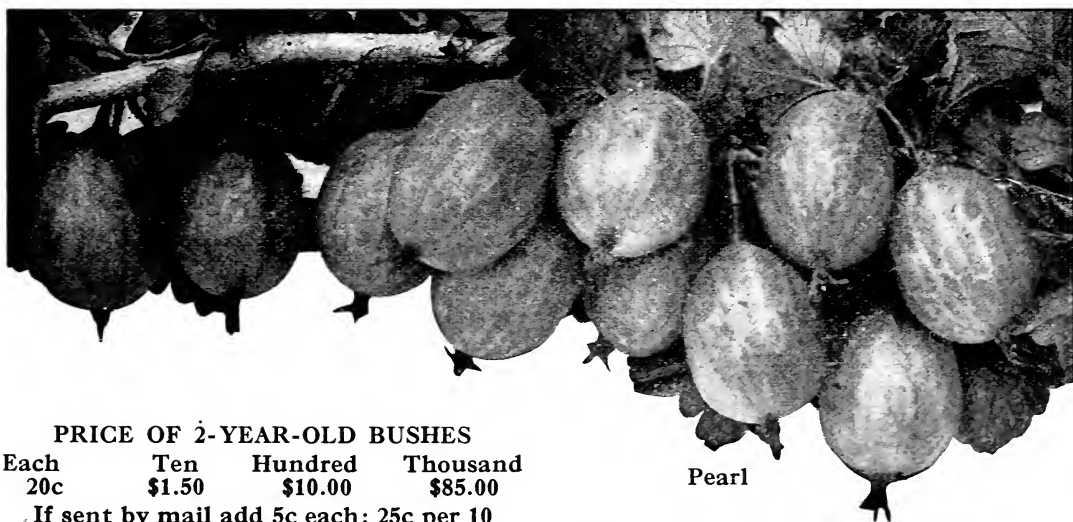

There is a number of different ways of serving Early Strawberry Rhubarb — pies, cakes, sauces, jellies, puddings, etc.

Price, 15c each; 2 for 25c; \$1.00 per 10; \$5.00 per 100. If sent by mail, add 5c per plant.

Pearl

PRICE OF 2-YEAR-OLD BUSHES

Each	Ten	Hundred	Thousand
20c	\$1.50	\$10.00	\$85.00

If sent by mail add 5c each; 25c per 10

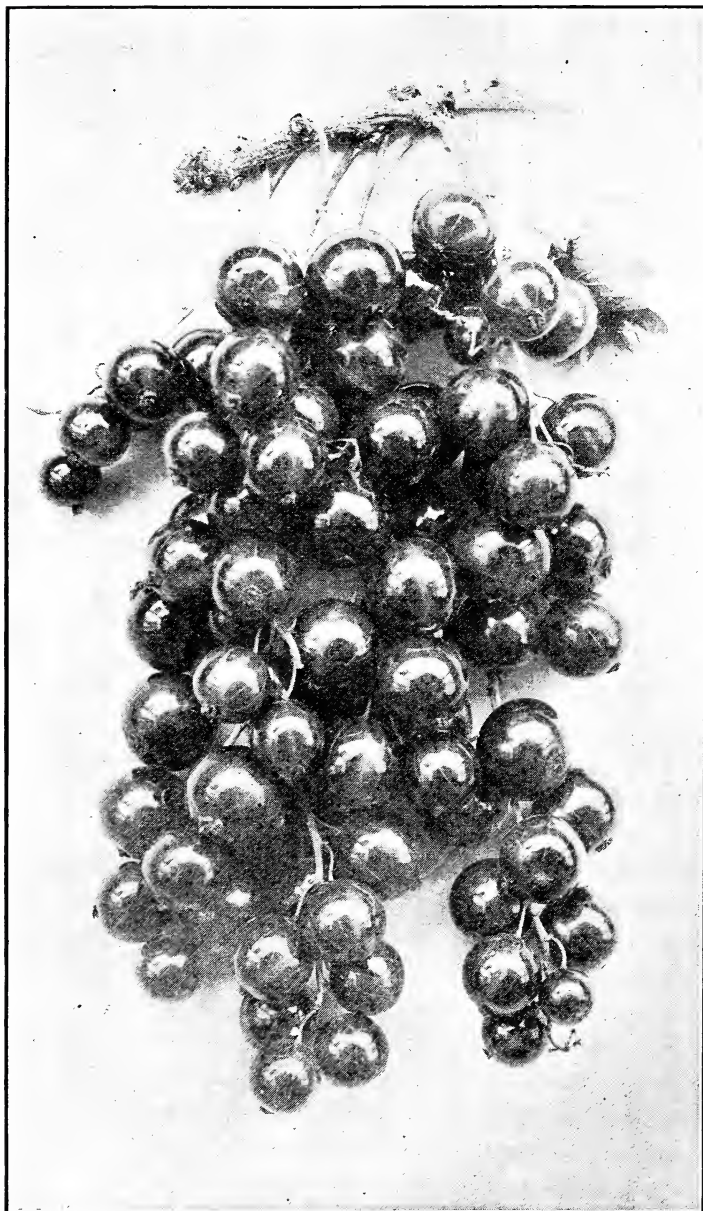

Downing—Large, pale green and of splendid quality for both cooking and table use.

Pearl—This variety bears a great resemblance to the Downing, but is superior in size and quality. It is very hardy; free from mildew and the most productive of all varieties.

Josselyn—Fruit red, large size, smooth, of best quality. Has been tested over a wide extent of territory by the side of all the leading varieties, and so far is free from mildew, both in leaf and fruit. A wonderful cropper, with bright, clean, healthy foliage.

WOODLAWN NURSERIES

CURRENTS

Red Cross—Sweetest Currant ever produced

Red Cross—Very popular owing to its sweetness and fine flavor. New York Experiment Station says: "Red Cross is large and productive. The masses of fruit are so dense as to completely hide the bearing canes from view."

Perfection—Won the Barry \$50.00 Gold Medal of the Western New York Horticultural Society, the Pan-American Exposition Medal, and the Gold Medal at the St. Louis Exposition of 1904. The color is a beautiful bright red; clusters long; large size berries. Price, 20c each; \$1.50 per 10; \$8 per 100; \$70 per 1000.

PRICES OF CURRENTS

(Except where otherwise noted)

15c each; \$1.00 per 10; \$7.50 per 100; \$50.00 per 1000.

If sent by mail add 5c each; 25c per 10.

Our Currant Bushes are extra strong, two years old.

✓ **Fay's Prolific**—Less acid than Cherry; bunch large, berries medium. A remarkable cropper.

✓ **Lee's Prolific**—Fruit is large and of fine quality. Very productive.

✓ **White Grape**—Very large, yellowish-white; excellent quality.

✓ **Wood's Improved Cherry**—A strain of the original Cherry which we have greatly improved upon. It is larger, has better bunches, and is a stronger grower. Fruit is large, deep red, and sub-acid.

✓ **Wood's Giant Black**—This is the largest and finest black variety known. Much valued for jellies. Price 25c each; \$2 per 10.

Mr. Liddle, of Middleport, N. Y., writes: "The Wood's Giant Black Currant is a remarkable variety and I feel safe in saying that it has a great future. It is extremely productive. This past season I made a net profit of \$150 from 150 bushes. I strongly recommend it for either home use or commercial purposes."

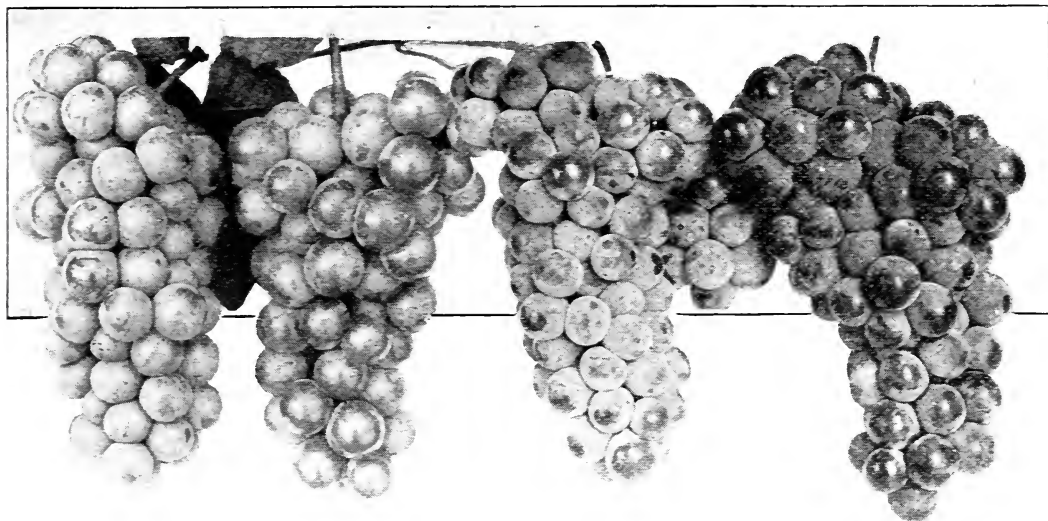

Mr. Elmer E. Hall, of Middleport, N. Y., writes: "I saw some of the Wood's Giant Black Currants at Mr. Liddle's farm and they are the greatest Currants I have ever seen. The bushes were loaded and some of the fruit was as large as cherries."

Rochester, N. Y., Nov. 2, 1917.

Gentlemen: You asked us how our Currants did this season—we have two acres of them from which we sold over 6000 lbs. of fruit at 10c and 12c per lb. We made a net profit of over \$500. Yours truly,

SCHUM BROS.

Schum Bros. grow Wood's Improved Cherry and Red Cross Currants.

Worden

Concord

SELECT HARDY GRAPE VINES, 2 Years Old

PRICES OF GRAPE VINES (Except where otherwise noted)

25c each; \$2.00 per 10; \$12.00 per 100.

Agawam—Dark red. Large bunch and berry; rich, sweet and aromatic; vigorous and very productive.

Brighton—A large delicious red grape; flesh sweet, tender and very juicy. 30c each; 50c per 2; \$2.50 per 10; \$15.00 per 100.

Catawba—Berries large and coppery red; flesh finely flavored. An old favorite.

Concord—There are more Concord vines planted by vineyardists than all other varieties combined. Berries large, black, covered with a rich bloom.

Delaware—Bunches small and compact; berries light red, small, thin skinned. Very juicy, exceedingly delicious. Vine hardy and productive. 30c each; 50c per 2; \$2.50 per 10; \$15.00 per 100.

Diamond—Greenish white with a yellow tinge; flesh juicy and very good. Vigorous and productive.

Lindley—Light red; sweet and tender. Should be grown with Concord or Worden.

Moore's Early—Bunch large, berries black with a heavy blue bloom; quality better than the Concord.

Niagara—Berries white, larger than Concord, sweet to center. Skin thin but tough. Ripens before Concord.

Worden—Berries are black and larger than the Concord. Ripens a few days earlier and is superior to it in flavor.

Grape Vines can be sent by mail
at a cost of 5c each

The **MONROE STRAWBERRY** was awarded the **BARRY GOLD MEDAL** by the Western New York Horticultural Society in 1914.

STRAWBERRIES

Prices of Monroe, 50c per 12; \$1.50 per 100; \$10 per 1000;

If sent by Mail,—55c per 12; \$1.75 per 100.

Monroe—We are proud to say that we introduced the "MONROE" which has made a record for itself. The berry is deep red, not red in spots as on some varieties, but red all around, making it a very handsome fruit. It is very finely grained, very firm and red to the core. The flavor of the "MONROE" surpasses that of any other strawberry. The season of ripening is what we call second early or about the time of "Senator Dunlap".

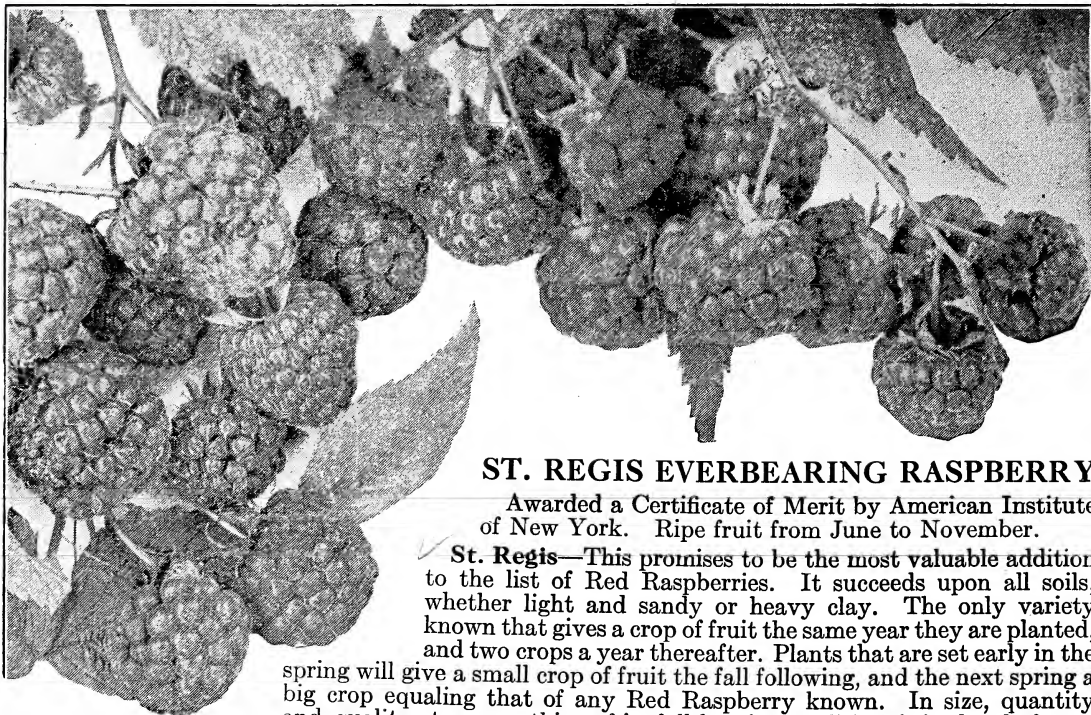

Gentlemen: I have been in the berry business for 25 years, but have not seen anything to equal the Monroe. We picked 12,000 quarts of berries from three-fourths of an acre of plants. I am so greatly pleased with its high merits that I have discontinued growing all other varieties that I, heretofore, thought could not be equalled, and am growing only the Monroe.

Yours truly, GUS HERMAN.

Mr. Herman is known as one of the largest berry growers in Monroe County, N. Y.

RED RASPBERRIES

If Raspberries are to be sent by mail, add 10c per every 10 plants

ST. REGIS EVERBEARING RASPBERRY

Awarded a Certificate of Merit by American Institute of New York. Ripe fruit from June to November.

St. Regis—This promises to be the most valuable addition to the list of Red Raspberries. It succeeds upon all soils, whether light and sandy or heavy clay. The only variety known that gives a crop of fruit the same year they are planted, and two crops a year thereafter. Plants that are set early in the spring will give a small crop of fruit the fall following, and the next spring a big crop equaling that of any Red Raspberry known. In size, quantity and quality, to say nothing of its fall-bearing qualities, it is ahead of anything we know of. About the middle of August it commences to set fruit on the young canes, and bears continuously from then until frost. The berries are large, beautiful and attractive. Price, 2 for 25c; \$1.00 per 10; \$3.00 per 100; \$25.00 per 1000.

Wood's Improved Cuthbert—A strain of the original Cuthbert which we have been testing and improving for years. It is a strong grower, has healthy foliage, and is very productive if planted on good soil. Cuthbert is one of the old standard, reliable sorts that will give a good crop of large red berries that are firm, have rich flavor, and are of very fine quality; it is more largely grown than any other variety. We recommend it for either home use or field culture. Price, 2 for 25c; 75c for 10; \$2.50 per 100; \$20.00 per 1000.

Mr. E. S. Pratt of West Webster, N. Y., sold one acre of Wood's Improved Cuthbert Red Raspberries on contract to the Beechnut Packing Company of Rochester, receiving 9c per pint or \$342.26 for the entire crop.

Columbian—Very large, often an inch in diameter; dark red, bordering on purple, adheres firmly to stem and will dry on the bush if not picked; of rich, sprightly flavor, the best for canning or evaporating, and probably the most productive of all raspberries. A most vigorous grower, canes ten to fifteen feet in length and often over an inch in diameter, strong and woody, its roots spreading and penetrating the soil to a great depth, thus enabling it to resist drought. It propagates from the tips and never suckers from the roots. It is very hardy, enduring 28° below zero without injury. Price 2 for 25c; 75c per 10; \$2.50 per 100; \$20.00 per 1000.

East Herkimer, N. Y., R. D. No. 1

Gentlemen:

I read the account of Mrs. Robinson's crop of 2,710 qts. of Columbian berries from 1,000 plants. I picked 320 qts. from 80 three year old plants, averaging 4 qts. to a plant, and I nearly lost a picking from a heavy rain knocking them from the plants. I can send you the names of several of your customers who will vouch for this.

Very truly yours,

CLARENCE VanHORN.

SPECIAL FRUIT COLLECTIONS

"These collections are made up especially for the owners of small lots who desire a choice assortment of fruits.

BLACK RASPBERRIES

If Raspberries are to be sent by mail, add 10c per every 10 plants

One-year-old patch of Plum Farmer Black Raspberries owned by Boyd M. Smith, Berwick, Pa. Read letter below

Dear Sir:—I am inclosing a photograph of my one-year patch of Plum Farmer Black Raspberries. I picked eight hundred (800) quarts from four hundred (400) plants—the first crop. They are the greatest thing I have ever seen. I learned of your firm through Mr. R. H. Hess of this town. He is a customer of yours and is not afraid to recommend you to his friends. Yours truly, **BOYD M. SMITH**, 1508 Pine St., Berwick, Pa.

✓ **Plum Farmer**—The fruit is very large, often measuring an inch in diameter. It is a fine picker and brings the highest prices on the market. Wherever we have sold Plum Farmer it has given its grower.

Price, 2 for 25c; \$1.00 per 10; \$3.00 per 100; \$25.00 per 1000.

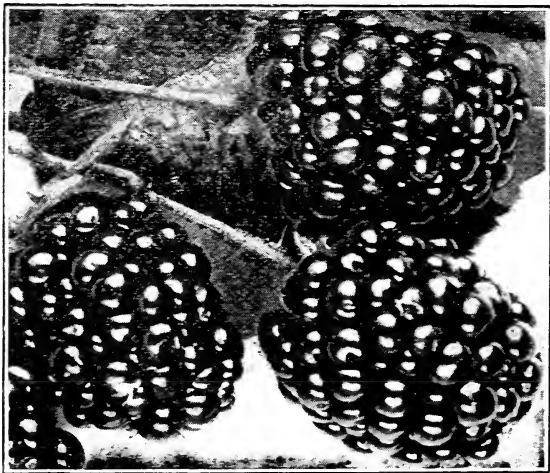

BLACKBERRIES

If Blackberries are to be sent by mail, add 10c per every 10 plants.

✓ **Blowers**—"The Giant of all Blackberries." It is an upright, mammoth grower, is very hardy and enormously productive. A single plant produced over 2600 berries and from $\frac{3}{4}$ of an acre of land 112 bushels of fruit were picked which sold at \$4.80 per bushel or at a rate of \$716.80 per acre. The Blowers commence to ripen about the middle of July and bear about two months. Price, 2 for 25c; \$1.00 per 10; \$3.50 per 100; \$30.00 per 1000.

✓ **Eldorado**—One of the hardiest and finest Blackberries in cultivation. The berries are of good size, glossy black, very sweet and tender, and retain their lustre a long time after being picked. A reliable, standard variety.

Price, 2 for 25c; \$1.00 per 10; \$3.50 per 100; \$30.00 per 1000.

Snyder

✓ **Snyder**—The "Old Faithful" of the Blackberries. Medium size, sweet and melting to the core; very hardy and wonderfully productive; valuable for home use and market. Price, 2 for 25c; \$1.00 per 10; \$3.00 per 100; \$25.00 per 1000.

WOODLAWN NURSERIES

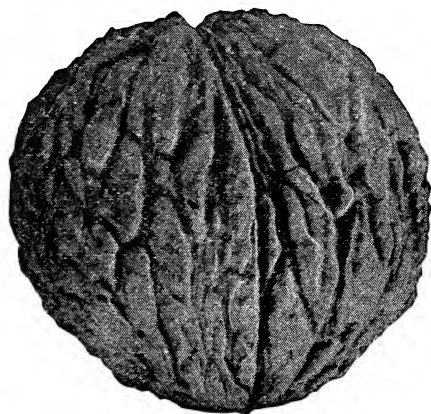

Northern Grown Nut Trees

The Nuts in the above photograph were picked from a five-year-old English Walnut tree near our office.

English Walnut—An exceedingly handsome tree for the lawn. It produces large crops of thin shelled, delicious Nuts which are always in demand at good prices. 2½ to 3 ft., 75c each; \$6.25 per 10.

Mr. Thomson, of East Avon, N. Y., owns the largest commercial orchard of English Walnuts in the East. This orchard has endured 30 years with absolutely no winter killing with occasional temperatures 20° below zero. 1915 crop, 260 bushels, was sold at 25c per pound. 32 pounds per bushel. \$2,080.

Black Walnut

Black Walnut—Bears a heavy crop of large, Nuts of excellent quality. They are much relished and bring a good price on the market. Tree is a rapid grower. Very valuable for its timber, which enters largely into the manufacture of fine furniture. 4 to 5 ft., 75c each; \$6.25 per 10.

Spanish Chestnut—Produces large crops of very large Nuts that sell readily at good prices. 3 to 4 ft., 75c each; \$6.25 per 10.

Butternut—Produces large, elongated Nuts with rich, sweet, oily kernel; very nutritious. Tree grows rapidly and yields large crops in a few years. There are large profits in Butternut growing. 4 to 5 ft., 75c each; \$6.25 per 10.

Japan Chestnut—Of dwarf habit, hardy, and extremely productive. The tree comes into bearing at an early age and the nuts are of enormous size. 3 to 4 ft., 75c each; \$6.25 per 10.

Irondequoit, N. Y., October, 1915.

Gentlemen: I have several Japan Chestnut trees that are about nine years old and each bore three pecks of nuts this past season. They were of very large size, of fine appearance and sold for \$2 per peck. I have planted a great many trees as I find that there is a larger profit in growing them than in fruit trees. Yours truly,
MARSH WHIPPLE.

Japan Walnuts picked from a six-year-old-tree

Japan Walnut—The shell is a little thicker than that of the English Walnut, which it resembles in a general way; kernels are meaty, delicate, and can be removed entirely. 3 to 4 ft., 75c each; \$6.25 per 10. 4 to 5 ft., \$1.00 each; \$8.50 per 10.

A. Y. Cathcart, Bristol, Ind., says: "I have been raising Japan Walnuts for 18 years and am more than pleased with them. They are very hardy as they have stood 30 degrees below zero without injury. The trees come into bearing young. I have trees three years old that bore Nuts this season; 18 years old, each have three to four bushels. In quality the Nuts resemble the Butternut, being much richer than English Walnut. Trees grow very fast and are fine for shade."

American Sweet Chestnut—It bears a Nut of good quality and seldom fails to produce a good crop. 4 to 5 ft., 75c each; \$6.25 per 10.

Hazelnut—The well-known Hazel Nut. 50c each.

5321 Maplewood Ave., Chicago, Ill.
April 6, 1917.

Gentlemen: Plants sent by Parcel Post were received in excellent condition—fresh and full of life. Will recommend the Woodlawn Nurseries to my friends. Thanking you, I remain Yours very truly.
ALBERT F. DOMBROW

ORNAMENTAL TREES

Avenue of Norway Maples

A	denotes trees which attain the largest size, 50 feet and "upwards.
B	" " " " " secondary size, 20 to 40 feet.
C	" " " " " medium size, 8 to 15 feet.

MAPLE TREES

Maple, Norway (A)—The compact, vigorous nature of this tree renders it desirable for the street or lawn. The growth is fairly fast, the head massive and rounded, with broad rich green foliage. This variety is highly recommended by the Shade Tree Commissioners for street and park planting.

	Each	Ten	Hundred
6 to 8 ft.....	\$.75	\$7.00	\$ 60.00
8 to 10 ft.....	1.00	9.00	80.00
10 to 12 ft.....	1.50	12.00	100.00
Extra 2-in. Caliper.....	\$2.00	\$15.00	\$125.00
Extra Large 2½ to 3½ in. Caliper.....	3.00	25.00	

Maple, Ash-Leaved or Box Elder (B)—A fine rapid growing variety, with handsome, light green foliage and spreading head; very hardy; desirable for street planting and succeeds in many sections where other varieties do not thrive.

8 to 10 ft., 75c each; \$7.00 per 10

10 to 12 ft., \$1.00 each; \$9.00 per ten

Maple, Schwedlerii (Red Leaved))B—An excellent and striking variety. The beautiful leaves attract attention all season, but are especially fine in spring, when their gleaming red and purple contrast brightly with the delicate green of other trees. Purplish-green in midsummer; golden yellow in autumn. 8 to 9 ft., **\$1.50 each; \$12.00 per 10.**

Maple, Sugar or Rock (A)—A native tree valuable for its production of sugar and wood. Very stately in form, rapid grower and has fine foliage. Valuable ornamental variety. 8 to 10 ft., **\$1.00 each; \$9.00 per 10.**

Silver Maple—A favorite for the street, park or lawn.

Maple, Silver-Leaved or Soft Maple (A)—Of rapid growth, large size, and rounded form; foliage bright green above and silvery beneath; very hardy and easily transplanted.

	Each	Ten	Hundred
6 to 8 ft.....	.60	\$ 5.00	\$40.00
8 to 10 ft.....	.75	7.00	60.00
10 to 12 ft.....	1.00	9.00	80.00
Extra Large Size.....	1.50	12.00

WOODLAWN NURSERIES

Wier's Cut-Leaved Maple

Maple Wier's Cut-Leaved (A)—This is one of the most remarkable and beautiful trees with cut foliage. Its growth is rapid, shoots slender and drooping, giving it a habit almost as graceful as the Cut-Leaved Birch. 8 to 10 ft., \$1.00 each; \$9.00 per ten.

Japan Blood-Leaved Maple

Maple, Japan Blood-Leaved (C)—A general favorite on account of its dense, compact, graceful growth and brilliant, beautifully cut foliage, varying in color from brightest yellow to deep blood-red. Autumn colorings are gorgeous. Of dwarf habit which makes it a very desirable tree for the lawn. Price of specimens with ball of earth on roots, burlapped, 3 feet high, \$2.00 each.

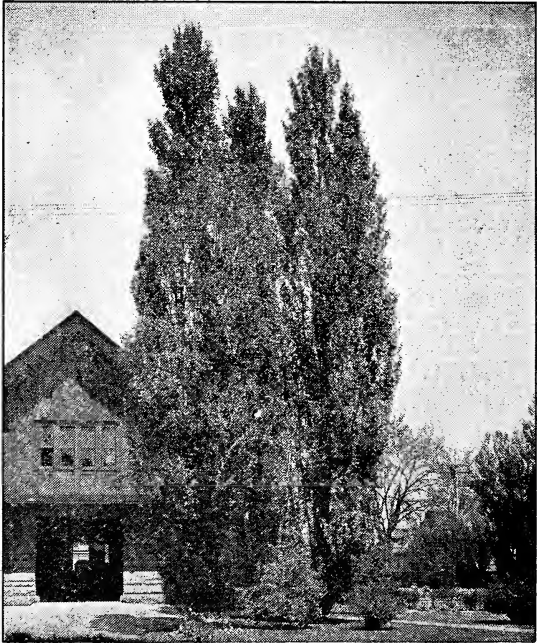

Oriental Plane

Oriental Plane (A)—A well known tree. Extensively used for street and park planting, especially in cities where there is much smoke.

	Each	Ten	Hundred
8 to 10 ft.....	\$1.00	\$ 9.00	\$ 80.00
10 to 12 ft.....	1.50	12.00	100.00

Poplar, Carolina (B)—Pyramidal in form and robust in growth; leaves large and glossy; valuable for screens. Very rapid grower.

	Each	Ten	Hundred
8 to 10 ft.....	\$.40	\$ 3.50	\$ 25.00
10 to 12 ft.....	.50	4.50	30.00

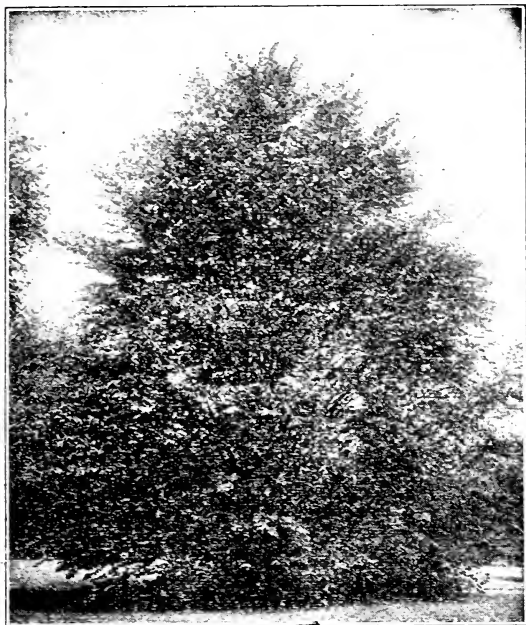

Lombardy Poplar

Poplar, Lombardy (A)—The erect, vigorous and full spiry form lends a charm and dignity to a street, boundary or landscape. Very desirable on large grounds to break the average heights and forms of other trees.

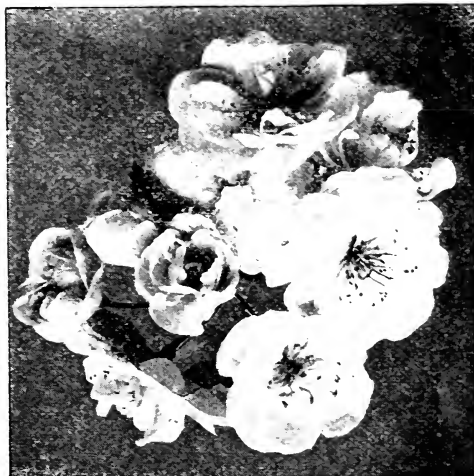

Price	Each	Ten	Hundred
8 to 10 ft.....	\$.60	\$5.00	\$45.00
10 to 12 ft.....	.75	6.00	50.00

ALLEN L. WOOD, Rochester, N. Y.

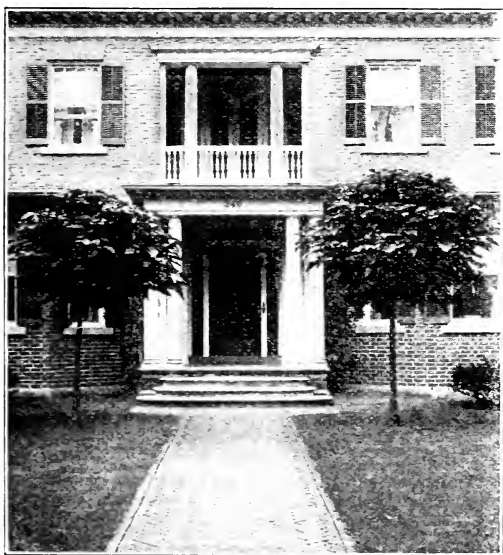

Rivers' Beech is noted for its rich, glossy foliage

Beech, Rivers' Purple-Leaved (B)—An elegant, compact, low-branching tree. Foliage crimson, changing to dark purple in summer. Finest of all purple-leaved trees, a most striking lawn tree. 4 to 5 ft., \$1.50 each.

Bechtel's Double-Flowering Crab

Crab, Bechtel's Double-Flowering (C)—One of the most beautiful of the many fine varieties of the flowering crabs. Tree medium size, covered in early spring with large, double, fragrant flowers of a delicate pink color. From a distance they have the appearance of roses. 2 to 3 ft., 50c each; 3 to 4 ft., 75c each.

Catalpa, Bungeii each side of walk

Catalpa, Bungeii (Umbrella Catalpa) (C)—Grafted on stems 6 to 8 ft. high, it makes an umbrella shaped top without pruning; perfectly hardy. Leaves large, glossy, heart-shaped, deep green. One of the most unique trees; desirable for lawn, park and cemetery planting. Two-year heads, extra large, \$1.50 each.

Catalpa, Speciosa (A)—This medium to large tree with its tropical-like foliage and its pyramids of white flowers is worthy of a place in every collection. It is very ornamental and is a valuable tree for the street or park. 7 to 8 ft., 75c each; 8 to 10 ft., \$1.00 each.

Cut-Leaved Birch

Birch, Cut-Leaved Weeping (A)—Its tall, slender, yet vigorous growth, graceful, drooping habit, silvery-white bark and delicately cut foliage present a combination of attractive characteristics rarely met with in a single tree. 6 to 8 ft., 75c each.

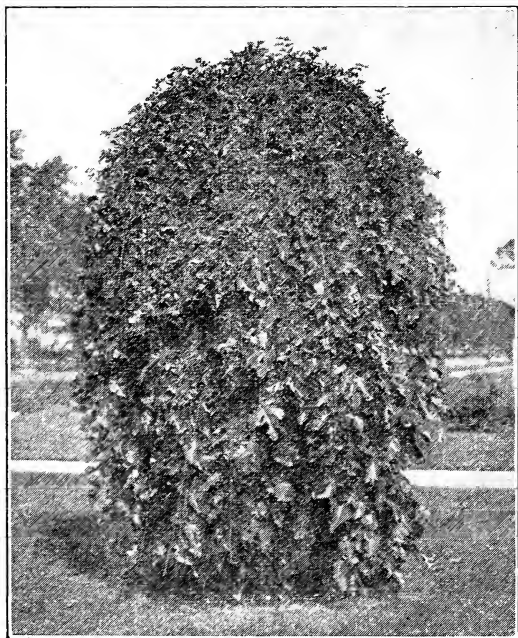

WOODLAWN NURSERIES

American Linden or Basswood

Linden, American (B)—Of unusual stately beauty. Foliage is luxuriant and the curious cream colored flowers have a delightful fragrance. Blooms in July. Growth is rapid and upright. Extra fine Trees, 10 to 12 ft., \$1.00 each; \$9.00 per 10.

Laburnum or Golden Chain (C)—Has smooth shining foliage. The name of Golden Chain alludes to the length of drooping racemes of yellow flowers. 4 ft., 75c each

Tea's Weeping Mulberry

Mulberry, Tea's Weeping (C)—One of the finest, most graceful and satisfactory of weeping trees. Umbrella shaped head, with slender willowy branches drooping to the ground. It has beautiful glossy foliage, handsomely cut or divided into lobes. It is perfectly hardy. \$2.00 each.

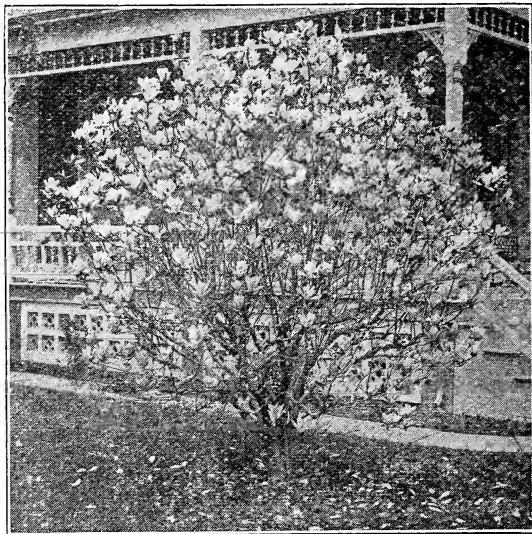

Mulberry, Downing (B)—Berries very large, black, and of excellent quality. Should be in every garden. Very valuable when planted near a Cherry Orchard as the birds will eat this fruit instead of the Cherries. 5-6 ft., 50c each; \$4.50 per 10; \$40 per 100.

Mulberry, Russian (B)—A hardy variety. Tree is a rapid grower; foliage is abundant. 7 to 8 ft., 50c each; \$4.50 per 10; \$40 per 100.

Elm, American (A)—Broad, arching branches with splendid dark green foliage, affording abundant shade. Ranks among the very best for avenue, or park planting 8 to 10 ft., 75c each; \$7.00 per 10. 10 to 12 ft., \$1.00 each; \$9.00 per 10.

Elm, Camperdown (Weeping Elm)—One of the most picturesque weeping trees. 6 to 8 ft., \$2.00 each.

Horse Chestnut (A)—The well-known variety. Has magnificent spikes of white flowers. Fine for street planting. 7 to 8 ft., 75c each.

Magnolias fill the air with a rich perfume

Magnolia, Soulangeana (C)—Chinese variety, dwarf grower, bears showy white and purple flowers, cup-shaped and three to five inches in diameter. Foliage dark and glossy. 4 to 5 ft., \$2.00 each.

Magnolia, Speciosa (C)—Flowers smaller, lighter in color than Soulangeana and remain on the tree longer. 4 to 5 ft., \$2.00 each.

Mountain Ash (B)—A favorite; erect growing tree of medium size, producing white flowers early in the Spring, followed by clusters of bright scarlet berries which remain on the tree through the Winter. 10 to 12 ft., \$1.00 each.

Thorn, Paul's New Double Flowering (C)—This tree deserves to be classed among the most beautiful of all ornamentals. It is a dense, low grower, and occupies but little space; well adapted to beautify small grounds. Blooms in May and June. Flowers are a bright carmine color. 4 to 5 ft., 75c each.

Tulip Tree, or White Wood (A)—One of our largest native trees, with large glossy leaves shaped like a violin, and beautiful tulip like flowers. Very desirable for planting on lawns, or where rapid growing trees are desired. 8 to 10 ft., \$1.00 each.

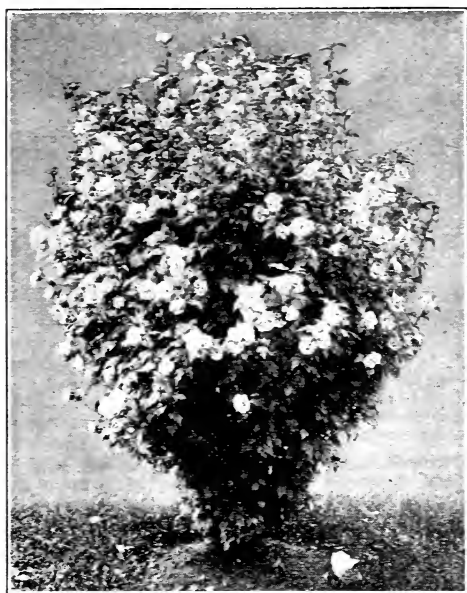

Willow, Babylonica (B)—A well known, weeping variety. Most graceful tree of large size. 7 to 8 ft., 75c each.

Willow, Golden (B)—A distinct variety, with bright golden bark. Habit same as Babylonica. 7 to 8 ft., 75c each.

ORNAMENTAL SHRUBS

The Shrubs we grow are of the very choicest varieties, are extra strong, two to three years old and from two to four feet in height.

D denotes shrubs, which attain 9 to 12 feet in height at maturity.
 E " " " " 5 to 8 " " "
 F " " " " 2 to 4 " " "

Althea, or Rose of Sharon

Althea, or Rose of Sharon (D)—Flowers are of good size, trim and attractive; blooms in September and October. Colors, Pink, Purple, Red, White. 35c each.

Tree Althea (D)—Same as bush, but grown in tree form, with single stem. 50c each.

Almond (Large Double Flowering) (E)—One of the most beautiful early flowering shrubs, bearing double flowers like small roses. Dark red. 40c each.

Barberry, Thunbergii (F)—A shrub of marked excellence on account of its bright green foliage, which changes to brilliant red in the fall, and its bright red berries, which are conspicuous throughout the winter. The habit is dwarf and regularly spreading. Grows well in the shade and is extensively used in landscape work. Very hardy; has never been known to winter-kill. 25c each. (SEE FRONT COVER).

Barberry, Purple-leaved (E)—A very desirable purple-leaved shrub of upright habit and prickly stem, bearing abundance of yellow flowers in May, and reddish purple berries in autumn, which remain nearly all winter. Very effective in groups or masses or grown singly. 35c each.

Cornus, Elegantissima (Variegated Leaf) (E)—One of the finest shrubs, with beautifully variegated foliage. Some leaves are broadly margined with white, while others are entirely white. 40c each.

Cornus, Sanguinea (E)—A fine, rapid-growing shrub with red bark; leaves have a broad margin of white. One of the very best variegated-leaved shrubs. 35c each.

Calycanthus, or Sweet-Scented Shrub (E)—Its foliage is rich; flowers of a rare chocolate color, with an agreeable odor. Blossoms in June and intervals through the summer. Very desirable. 35c each.

Butterfly Bush

Butterfly Bush (E)—This beautiful shrub is greatly admired by everyone and should be included in every collection. Matures rapidly and will make a handsome bush the first season. It produces beautiful lilac-colored flowers in profusion. Blossoms the entire summer; splendid for cutting. Should be cut back to the ground early every spring. 25c each.

Deutzia, Pride of Rochester

Deutzia, Pride of Rochester (E)—Very large double white flowers. It excels in size of flower, profuse bloom and vigorous growth; nearly a week earlier than Deutzia Crenata. 25c each.

Eastwood, Mo., Nov. 25, 1918.

Allen L. Wood, Rochester, N. Y.

Dear Sir:—Trees arrived the 11th. They were some of the healthiest stock I have ever seen. Future orders will be yours; will also recommend your Nurseries to friends.

Yours for Business,
 DANIEL J. CORCORAN.

WOODLAWN NURSERIES

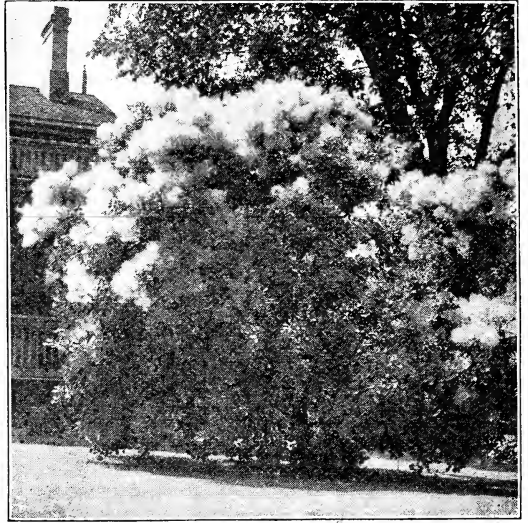

Deutzia, Gracilis

Deutzia, Gracilis (F)—A charming species of dwarf habit; flowers pure white. Fine for growing in front of taller shrubs. 30c each.

Deutzia, Candida (E)—Pure white flowers, very double. 30c each.

Deutzia, Lemoinei (F)—Pure white flowers, borne on stout branches of upright growth. Dwarf habit, free flowering. 35c each.

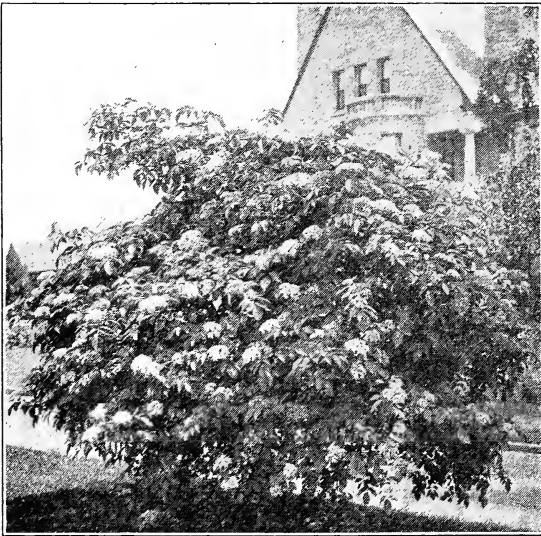

Purple Fringe

Fringe, Purple (Smoke Tree) (D)—A small tree or shrub very much admired on account of its peculiar fringe, or hair-like flowers, covering the whole surface of the bush in mid-summer. 40c each.

White Fringe (E)—A very showy shrub, with large leathery leaves and lace-like white flowers borne in gracefully drooping panicles. 40c each.

Purple-Leaved Filbert (E)—A very ornamental shrub, with large, dark purple leaves, particularly effective in shrubberies, or when planted by itself. 85c each.

Golden Elder

Elder, Golden-Leaved (E)—A handsome variety with golden-yellow foliage, which renders the plant very conspicuous and effective; white flowers. 35c each.

Forsythia, or Golden Bell (E)—A very early and showy spring bloomer; flowers bright yellow, appearing before the leaves. Very effective for covering steep slopes, walls, fences and arbors. 30c each.

Honeysuckle, Upright (E)—A well known shrub of erect habit. Valuable for its handsome flowers and showy fruit. Delightfully fragrant; one spray will fill a room with its delicate perfume. Colors, Pink, Red and White. 30c each.

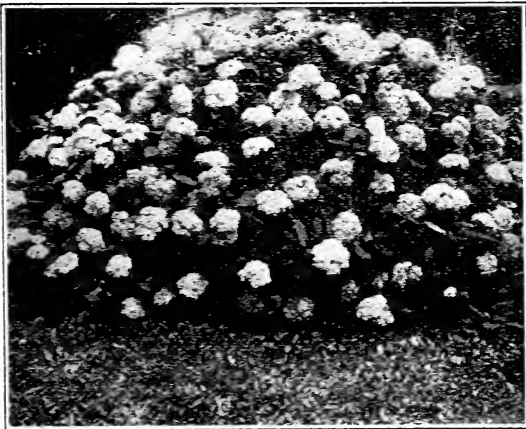

High Bush Cranberry (E)—Very ornamental. Its red berries resembling cranberries which hang on until destroyed by frost. 40c each.

Hydrangea, P. G.

Hydrangea, P. G. (E)—One of the most popular hardy shrubs. The immense heads of bloom are cream-color in bud, pure white when fully expanded, changing to pink and bronze with age, and finally to brown when frosted. 35c each.

Hydrangea, P. G., Tree Form (E)—Same as bush, but grown in tree form with single stem. Very desirable. 65c each.

Hydrangea, Arborescens

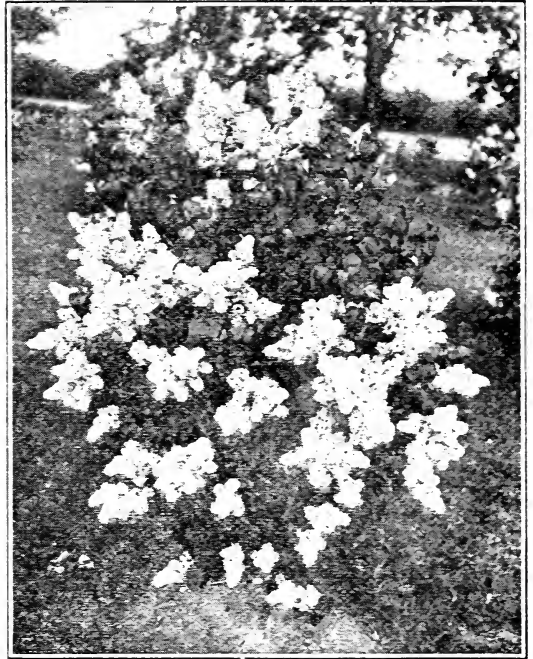

Hydrangea, Arborescens Grandiflora Alba (Hills of Snow) (E)—This hardy American shrub is the very finest addition to this class of plants found in many a year. The blooms are of the very largest size, of pure snow-white color, and the foliage is finely finished. 35c each.

Kerria, Japonica (F)—A green branched, slender, graceful shrub, with drooping branches; rich, dark yellow flowers which bloom all summer. 30c each.

White Kerria (E)—An attractive shrub with beautiful yellow green foliage and large white flowers late in May. 40c each.

LILACS—Named Varieties

During the last few years there has been many new varieties of Lilacs introduced. These greatly surpass the older varieties both in their color, blooming and fragrance. The list given below covers the cream of recent productions.

Lemoine Lilac

Never fails to charm with its delicate beauty

Lilac, Lemoine (D)—A choice variety bearing large clusters of double white flowers. 50c each.

Lilac, Chas. X (E)—A rapid growing variety. Flower trusses large. Color reddish purple. 50c each.

Lilac, Frau Dammann (E)—Pure white; very large trusses and flowers. 50c each.

Lilac, Ludwig Spaeth (E)—Flowers large and a deep purplish red. Very desirable. 50c each.

Lilac, Pres. Grevy (E)—One of the finest. Panicles large and flower a beautiful blue. 50c each.

Lilac, Villosa (E)—A variety from Japan, of dwarf growth, flowers pinkish purple. A late flowering variety. 50c each.

Lilac, Purple (E)—Bluish-purple flowers, standard variety; always good. 30c each.

Lilac, Red (D)—Purple-red flowers, standard variety. 35c each.

Lilac, White (E)—Cream colored flowers; very fine. 35c each.

Privet, California (E)—Handsome, smooth, shining green leaves; spikes of white flowers in June. Almost an evergreen and thrives in all soils. 25c each.

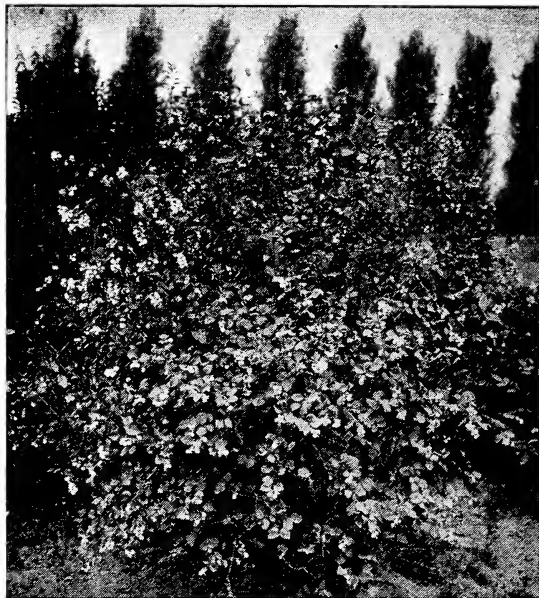

WOODLAWN NURSERIES

Common Snowball

Snowballs are magnificent and it is impossible to give them too much praise. Their adaptability for combinations with other shrubs is unexcelled.

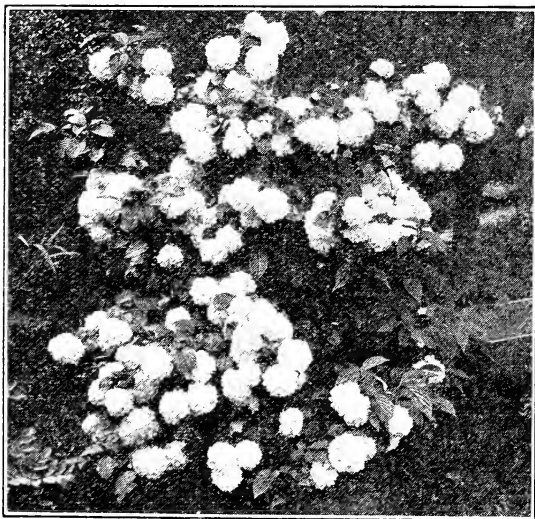

Snowball, Common (E)—A well-known favorite shrub producing its snowy-white sterile flowers in large balls in June. 30c each.

Snowberry

Snowberry, Racemosus (E)—Bushy form, small pink flowers in summer; quantities of large, white, waxy, roundish berries in autumn that remain on the plant through part of the winter. 30c each.

Snowberry, Vulgaris (E)—Low growing, spreading, graceful habit; foliage attractive; noteworthy from the beauty of its clusters of red berries which hang on the bush all winter. 30c each.

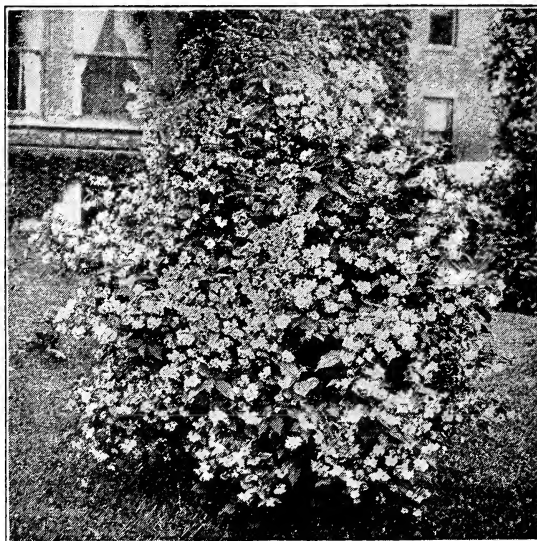

Japan Snowball

Snowball, Japan (Viburnum Plicatum) (E)—An erect, compact shrub, blooming in June; completely covered with large balls of flowers that are as white as snow; foliage is dark green. We recommend this most highly. 45c each.

Quince, Japan (E)—Dark green foliage, and showy, deep scarlet flowers of good size, produced singly or in masses along the branches. Much admired and often used for hedges. 30c each.

Tamarix (E)—A strong upright grower, with fine feathery foliage. Small pink flowers. Splendid shrub for seaside planting. 35c each.

Golden Syringa

Syringa, Golden (F)—A very pretty medium sized shrub with golden-yellow foliage. It keeps its color the entire season. Very valuable to plant with other shrubbery. 40c each.

Syringa (E)—Of vigorous habit. Very hardy, with large handsome foliage and beautiful white flowers produced in greatest profusion. One of the best and most popular shrubs. 30c each.

The planting of shrubs should not be figured as a luxury, but as an investment for the improvement of property.

ALLEN L. WOOD, Rochester, N. Y.

Spirea Van Houttei is especially attractive when planted in groups

The *Spireas* are elegant shrubs, of the easiest culture, and their blooming extends over a period of three months.

***Spirea, Van Houttei* (E)**—Without doubt the finest of all the *Spireas*. During the flowering season in May and June, the bush is covered with white flowers, presenting a beautiful appearance. Very hardy. Each year it is becoming more popular, playing a prominent part in landscape work. 25c each. (See front cover).

Spirea, Anthony Waterer

***Spirea, Anthony Waterer* (F)**—A dwarf variety of great beauty. Its broad flat heads of red flowers continue in perfection all Summer. 35c each.

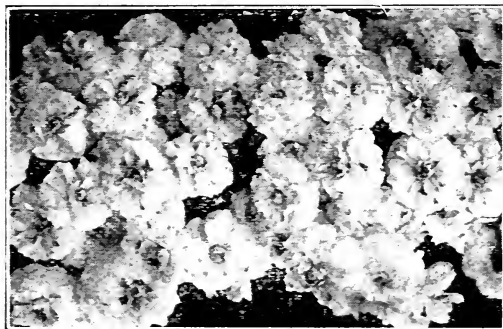

***Spirea, Aurea* (Golden) (E)**—Foliage green, bordered with a rich golden yellow. In June the branches are covered with double white flowers. Very conspicuous. 25c each.

***Spirea, Arguta* (F)**—Very early flowering and of dwarf habits. Flowers a clear white. A profuse bloomer. 30c each.

***Spirea Bumalda* (F)**—A low growing bush with dark leaves. Blooms early in May. Flowers a delicate pink. Very desirable. 30c each.

***Spirea, Billardi* (E)**—Rose colored flowers in spikes; blooms nearly all summer. 30c each.

***Spirea, Blue* (New) (F)**—Produces beautiful blue flowers all through autumn until checked by frost. Very profuse bloomer and one of the best of the late flowering shrubs. Showy in itself and fine for planting in contrast with other shrubbery. 35c each.

Spirea, Prunifolia

***Spirea, Prunifolia* (Bridal Wreath) (E)**—A superb old-fashioned variety, with graceful, upright, slender branches covered with a wreath of white flowers in May. 35c each.

***Spirea Callosa* (E)**—A free grower and blooms nearly all summer. Deep rose colored blossoms. 35c each.

***Spirea, Thunbergi* (F)**—A dense, feathery bush. The foliage, which is a peculiar shade of yellowish green, changing in autumn to bright red and orange. Flowers pure white, borne in feathery masses in early spring. 35c each.

Honeoye, N.Y., May 22nd, 1918.

Woodlawn Nurseries,

Gentlemen:—The shrubs have arrived and are most satisfactory in every way. They are without exception the finest shrubs I ever received from any nursery. Thanking you for filling my order so satisfactorily, I am,

Yours truly,

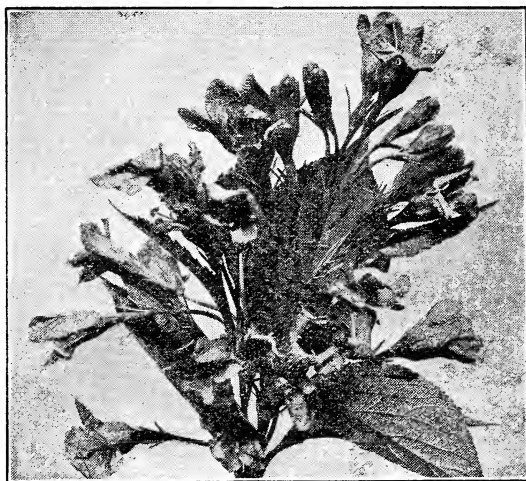

GEO. P. BLAKMER.

WOODLAWN NURSERIES

Weigela, Candida

Weigela, Candida (E)—A choice variety, blooming in great profusion during June and to some extent all summer. Pure white. 30c each.

Weigela, Eva Rathke

Weigela, Eva Rathke (F)—Flowers brilliant crimson. A very attractive variety. Almost a continuous bloomer. 35c each.

Weigela, Rosea

Weigela, Rosea (E)—An elegant shrub, with fine rose-colored flowers; of erect, compact growth; blossoms in June. 30c each.

PAEONIES

Price 30c each, except where otherwise noted
If sent by mail, add 5c per plant

Paeonies—A noble flower, almost rivaling the Rose in brilliancy of color and perfection of bloom.

Delachei—Dark velvety crimson purple; magnificent variety.

Edulis Superba—Bright rose, large, early and fragrant; a good Decoration Day variety.

Festiva—Creamy white flecked with carmine; fine late variety.

Fringe Leaved—A beautiful variety with delicate fern-like foliage and double scarlet-crimson flowers; brilliant and satiny. 35c each.

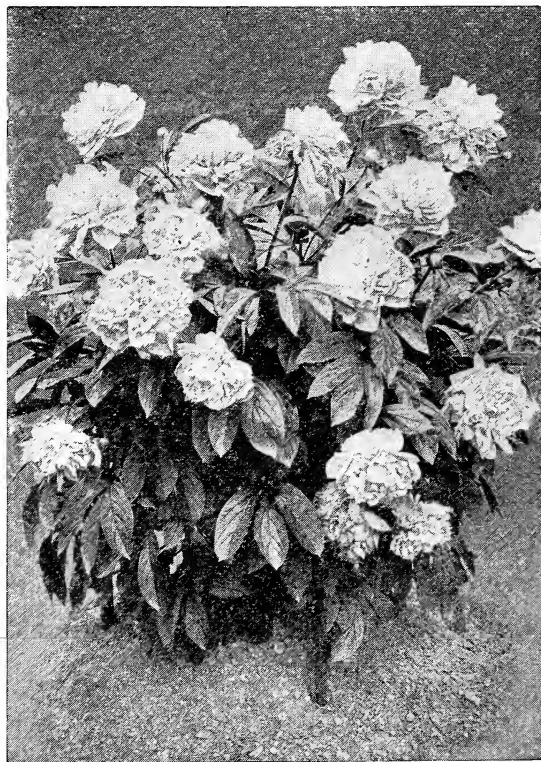

Hamlet—Pink. Flowers are very large and borne on long stems.

L. Indispensable—Creamy white, pale rose center.

Louis VanHouttei—Velvety cerise red with purple tints; very showy.

Queen's Perfection—Yellowish white.

Rubra Triumphans—Dark red. Very attractive bloom.

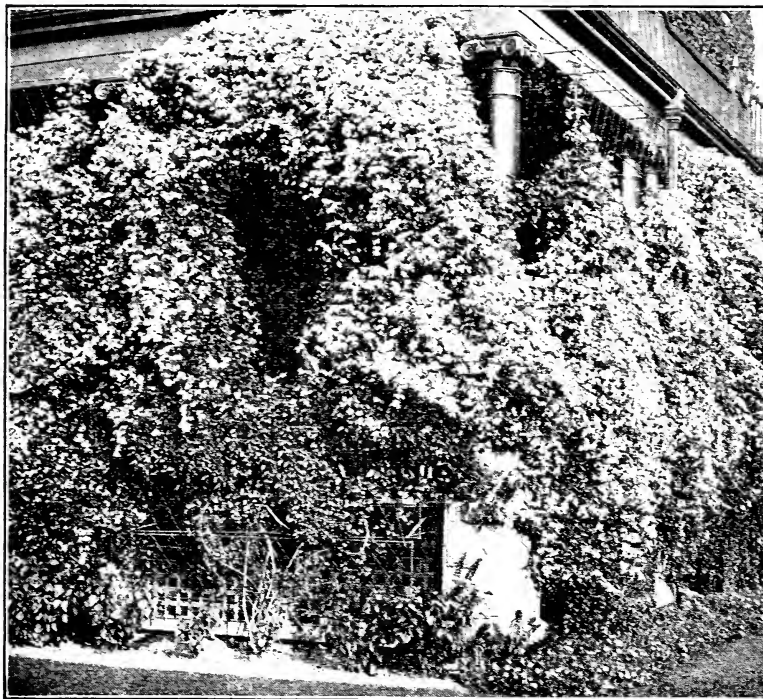

Paeonia, Duchess de Nemours

Duchess de Nemours—A choice variety. Very large and full; nearly pure white.

ORNAMENTAL VINES

If sent by mail
add 5c per vine

Clematis paniculata

Clematis, paniculata—Single, white. Of extremely rapid growth, with shining green foliage, and a profusion of flowers which are small but borne in large panicles; very popular. 35c each.

Euonymus Radicans—One of the finest evergreen vines, with rich, dark green foliage, clings like ivy; used extensively for covering rocky banks, rough walls, tree trunks, etc. 40c each.

Chinese Matrimony Vine—One of the hardiest of climbing vines. Purple flowers and later covered with scarlet berries. In China where they have a marriageable daughter, the parents plant one in front of the house. 40c each.

Hall's Japan Honeysuckle

Honeysuckle, Hall's Japan—A strong, vigorous grower, almost evergreen, with pure white flowers, turning to yellow; very fragrant; covered with flowers from July to December. 30c each.

Clematis, Jackmanni
Large, intense violet purple and remarkable for its velvety richness; free in growth and abundant and successive bloomer. 40c each.

Clematis, Henryi—Single; the finest white Clematis; very large, fine flowers; grows rapidly; blooms freely during summer and autumn. 40c each.

Clematis, Mme. Ed. Andre—Flowers medium size; dark red; velvety; very free, flowering. 40c each.

Ampelopsis Veitchii (Japan Ivy)—A beautiful, hardy, climbing plant of Japanese origin. It grows rapidly and clings with the tenacity of Ivy; the foliage is very handsome green in summer, changing to crimson in autumn. For covering brick and stone structures, walls, stumps of trees, rockeries, etc., no plant is so useful. 35c each.

Ivy, American or Virginia Creeper—A fine rich green in summer, changing to crimson in autumn.

Affords shade quickly and is very desirable for covering walls, verandas, or trunks of trees. 30c each.

Wistaria, Purple

Wistaria Chinese Purple—One of the most elegant and rapid growing of all climbing plants. One must see this plant in bloom to appreciate its magnificence. Has long pendulous cluster of pale flowers. 35c each.

Wistaria Chinese White—A most beautiful and striking vine. Can be used to cover trellises, porches, etc. 40c each.

Maman Cochet White (bloom the entire summer)

WOOD'S CHOICE ROSES

Our Roses are field grown, strong, and hardy; will bloom the first year.
If sent by mail, add 5c per plant.

Maman Cochet White—A very beautiful pure white rose, a great favorite; large flowers on long stems and profuse bloomer. **40c each.**

Anne de Diesbach—Brilliant crimson; a superb garden sort; fragrant; one of the hardiest and best. **40c each.**

Gruss an Teplitz—Scarlet, shading to velvety crimson, very fragrant; a free grower and most profuse bloomer. Blossoms the entire summer. Handsome foliage. Especially valuable for a garden rose. We can recommend it as one of the choicest roses. **50c each.**

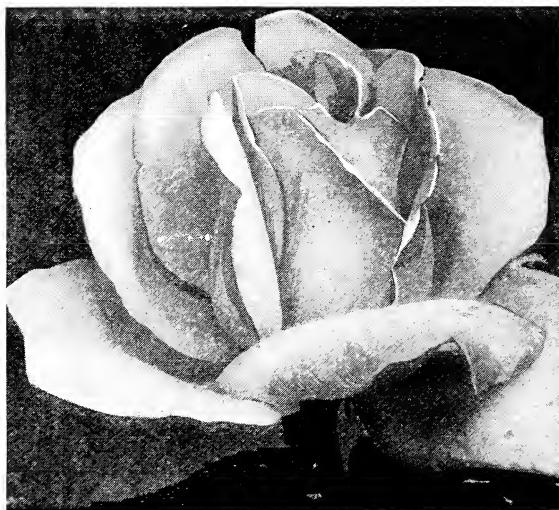

Magna Charta—Bright pink. Large fragrant flowers. One of the hardiest and best bloomers. **40c each.**

General Jacqueminot

General Jacqueminot—Flowers are large, brilliant crimson; rich and velvety; buds are exceedingly handsome; very fragrant. A fine Rose. **40c each.**

Black Prince—A very dark velvety crimson. Flowers large and full. One of the finest. **40c each.**

Snow Queen—Most Perfect White Rose

Snow Queen (Formerly Frau Karl Druschki)—Flowers are immense and produced with great freedom. The color is a marvelous white, vigorous and hardy. A great beauty. **50c each.**

Moss Rose—A favorite with everyone on account of the beautiful buds, which, for bouquets, are invaluable. We have two colors: Red and White. **40c each.**

ALLEN L. WOOD, Rochester, N. Y.

Mad. Gabriel Luizet—A magnificent large, full and fragrant flower. Soft pink with deep flesh colored center. One of the choicest. 40c each.

Paul Neyron—This magnificent Rose is by far the largest in cultivation; very double; of a beautiful deep rose-color and delightfully fragrant; borne upon vigorous upright shoots in great abundance throughout the entire season. 40c each.

RICHMOND—A new strong-growing Rose that blooms almost continuously. It is brilliant crimson-scarlet in color and very beautiful in bud form. It is not very double, but on account of its brilliant color, strong growth, and free-flowering habit it is greatly in demand as a cut-flower. 50c each.

Mrs. John Laing

Mrs. John Laing—Color a soft, delicate pink, with a satiny sheen; very fragrant. A remarkably free bloomer. 40c each.

Killarney—Queen of the Irish Roses

Killarney—In color it is especially beautiful, being an exquisite shade of deep sea-shell pink. The buds and flowers are of enormous size, the petals being frequently two and one-half inches deep. Blooms profusely throughout the season. 50c each.

Madam Plantier—A pure white, double June Rose. Very hardy and a continuous bloomer. 40c each.

Marshall P. Wilder—Color cherry-carmine, richly shaded with maroon; very fragrant. Vigorous grower and hardy. It continues to bloom profusely long after others are out of flower. 40c each.

Prince Camille de Rohan—Very dark velvety crimson, changing to intense maroon. A very prolific bloomer, and flowers are of excellent form and size. 40c each.

Baby Rambler

Baby Rambler—Bush, not Climbing. Flowers are large, well formed, crimson in color, and borne in clusters of 20 to 40 flowers at one time. Blooms profusely from June until frost. Very desirable for summer bedding and, when planted as a hedge, is an object of beauty. 30c each.

White Baby Rambler—Very prolific bloomer, each branch bearing from fifteen to forty perfect little creamy white flowers. A bed of Baby Rambler edged with White Baby Rambler makes a great show. 40c each.

WOODLAWN NURSERIES

CLIMBING ROSES

Climbing
American
Beauty

Flower of Fairfield—An ever-blooming Rambler. Blooms from early summer until frost. Brilliant crimson. 50c each.

Blue Rambler—Something new in Roses being of a decided blue color. A strong grower and profuse bloomer. 50c each.

Pink Rambler—Resembles Crimson Rambler in every respect, but color. 40c each.

White Rambler—Similar to Crimson Rambler, only the color is pure white. 40c each.

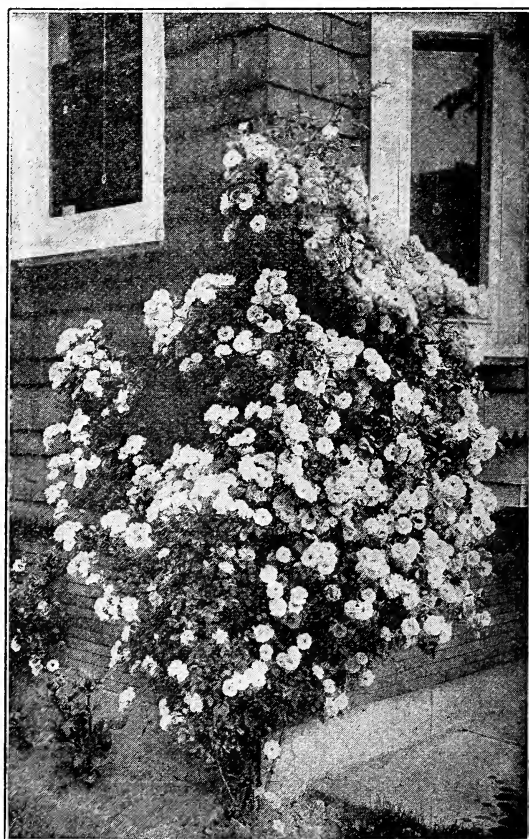

Yellow Rambler—Light canary shade; clusters smaller, individual flowers larger than Crimson Rambler. 40c each.

Climbing American Beauty—A beautiful Rose—One plant will produce twenty times as many blooms as the old American Beauty. Over nine hundred blossoms and buds have been counted on one four-year-old bush. The Roses grow on single stems and measure three to four inches in diameter. It has proved perfectly hardy, and the foliage is green and beautiful until the snow falls. It is a worthy ornament to any garden, and its beauty and fragrance will prove a lasting pleasure. If you are a lover of Roses do not fail to plant it. 40c each.

Crimson Rambler—A vigorous and rapid grower, often growing 8 to 15 feet the first season. Charming variety for covering trellises or buildings. If grown on a wire fence as a hedge it will attract immediate attention. It produces clusters of handsome Crimson Roses. 40c each.

Dorothy Perkins—Clear shell-pink, with flowers borne in clusters; full and double, with crinkled petals. The foliage stays on until winter. This is, without question, one of the very finest of all climbing Roses. 40c each.

Excelsa or Red Dorothy Perkins—The handsomest of all climbers. Double scarlet flowers in large trusses. Extremely vigorous and hardy. 40c each.

Thousand Beauties

Thousand Beauties—A superb Rose. Blooms profusely from early June until August, the flowers appearing in immense clusters of large size, and double. The colors vary from a soft rose through the shades of carmine, white, yellow and other delicate tints. It is a strong grower and its magnificent foliage is of itself a valuable feature. 40c each.

ALLEN L. WOOD, Rochester, N. Y.

PLANTS AND BULBS

Yellow Colosse—Decorative Dahlia

Delice—One of the best; soft rose pink.

Jack Rose—Great favorite, rich, old rose color.

Jeanne Charmet—Very beautiful Dahlia, Lilac pink.

Lyndhurst—Bright red. Early. Continuous bloomer.

Queen Wilhelmina—Pure white, best of its kind.

Yellow Colosse—One of the best of decorative class. 20c each; 6 (one of each) for \$1.00.

Golden Glow or Summer Chrysanthemum

Golden Glow (E)—Large showy plant, blooms from early summer until frost. Flowers $3\frac{1}{2}$ inches in diameter, double, deep golden yellow color, resembling yellow Chrysanthemums. 15c each; 2 for 25c; \$1.00 per 10.

J. H. Jackson—One of the finest Cactus Dahlia

Countess of Lonsdale—Rich, salmon pink.

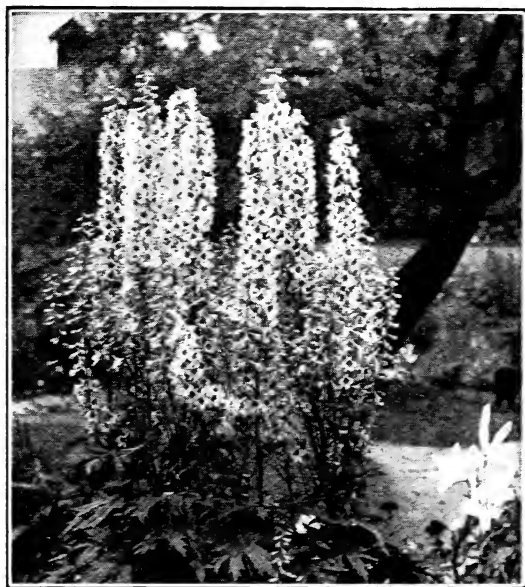

Golden Gate—One of the best yellow.

J. H. Jackson—Deep velvety blackish-maroon.

Kriemhilde—Ivory white. Queen of Cactus.

Earl of Pembroke—Very fine. Plum purple.

Strahlen Krone—Free bloomer. Brilliant cardinal. 20c each; 6 (one of each) for \$1.00.

Delphinium or Larkspur

Delphinium (Larkspur)—The flowers are of a beautiful deep blue. Their long showy spikes of flowers persist from June until frost and furnish the most satisfactory blue to any color scheme. 20c each; 6 for \$1.00.

WOODLAWN NURSERIES

Phlox, Fraulein G. Von Lassburg (Pure White)

La Vague—A beautiful shade of violet.
Champs Elysee—Bright red. A great favorite.
Pantheon—Peerless pink. Extra large.
Caran d Ache—Variegated with old rose shadings.
R. P. Struthers—Rosy carmine, with dark red eyes.
Fraulein G. Von Lassburg—Pure white. Very large.
Phlox—Strong field-grown. 20c each; 6 (one of each) for \$1.00.

Japan Iris

Iris, Japan—The flowers of the Japan Iris are of the richest colors, ranging from white to purple, with delicate markings and veinings. Some of the flowers are eight inches in diameter and the most delicate and beautiful combinations of colors imaginable. 20c each; 6 for \$1.00. (See front cover).

Lily of the Valley

Lily of the Valley—Will thrive and throw up its beautiful, fragrant, white bell, in any kind of soil. 10c each; 50c per 10; \$3.00 per 100.

Shasta Daisy—A very hardy perennial, blooming better and more abundantly each season, and continuing to bloom for several months. The pure white flowers are from two and one-half to four inches in diameter, and are borne singly on long, stiff, wiry stems. The blooms, when cut, remain perfectly fresh, and in good condition for two weeks. Strong field-grown plants. 20c each; 6 for \$1.00.

ALLEN L. WOOD, Rochester, N. Y.

Campanula or Bell Flower

Campanula or Bell Flower—Are among the most beautiful perennials in cultivation. They possess that light transparent grace that is so attractive in a flower. Very free of bloom throughout a long season, and adapted to any garden soil. We have them in two colors, Blue and White. 20c each; 6 for \$1.00.

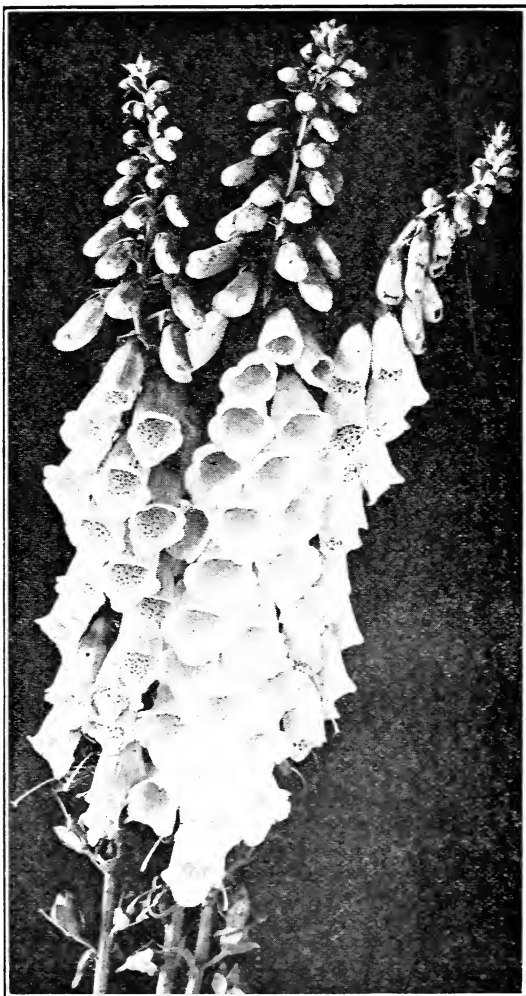

Gaillardia

Gaillardia—One of the most gorgeous of all flowering plants. Flowers measure 3 inches in diameter, on stems of 2 feet. A hard center of deep maroon is thickly bordered with petals of orange and yellow, ringed by circles of crimson red and maroon. Bloom from June until frost. 20c each; 6 for \$1.00.

HOLLYHOCKS (Double)

Hollyhocks, King of the garden—Most ornamental and handsome garden flowers, with their tall spikes dotted with large, double flowers of the most lovely color. Can be used with great effect as borders or against buildings or fences. Colors Maroon, Pink, Purple, Red, White and Yellow. 20c each; 6 (one of each) for \$1.00.

Mallow Marvels (Hibiscus)—Flowers are immense in size. White, with a velvety crimson in the center of each flower; will produce several hundred flowers in a season. 25c each; 6 for \$1.25.

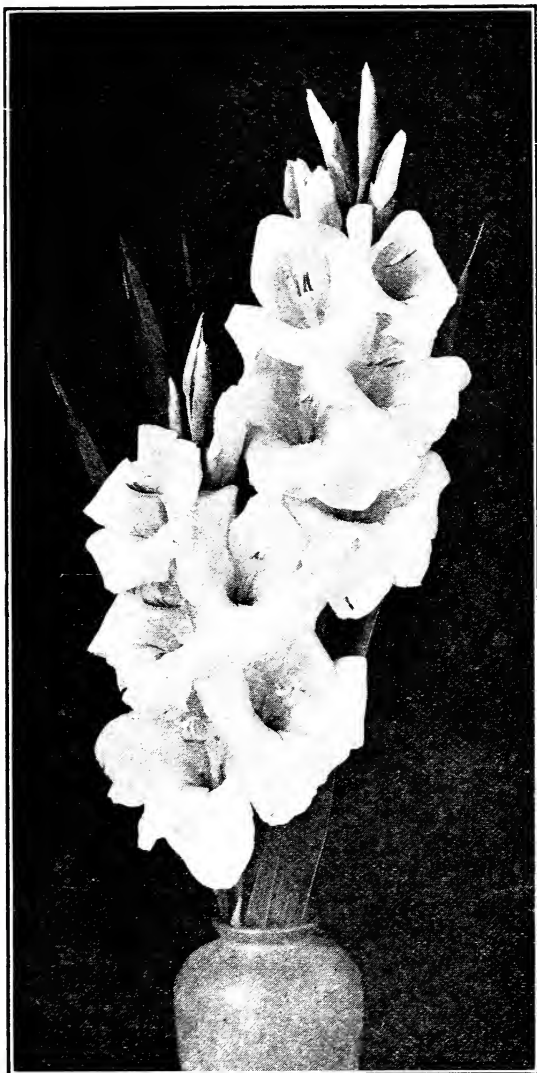

Digitalis or Foxglove

Digitalis or Foxglove—One of the most widely known and popular plants. The racemes are often two feet in length, containing scores of prettily-spotted thimble-shaped flowers. Very desirable for use in borders or as a background for lower growing plants. 20c each; 6 for \$1.00.

Yucca (Spanish Bayonet)—The stem is covered with large, creamy-white, bell-shaped flowers on laterals. Very desirable for rockwork, and effective in clumps on the lawn. 25c each; 6 for \$1.25.

WOODLAWN NURSERIES

Gladiolus, Rochester

Rochester (New)—The flower is a beautiful clear white throughout. It has no markings in the throat and even the anthers are white. The large, broadly opened blooms have nicely rounded petals, well arranged in ample spikes three feet in height. It has been awarded first prize at every one of the many places where it has been shown in competition. Its unrivaled purity, its splendid habit, and its fine keeping qualities as a cut flower combine to make Rochester White an ideal exhibition variety. 15c each; 2 for 25c; 10 for \$1.00.

R. R. No. 3, Pottstown, Pa., April 17, 1918.

Gentlemen: Received stock in good condition, the finest stock I have ever received from a nursery and the packing department deserves a lot of credit for the manner in which they pack the stock.

Yours respectfully,

JOS. A. BROWN.

We have no agents selling our stock, therefore we save you agents' commissions. Send cash with order. "Wood Quality" stock is the best.

Choice Varieties of Gladioli, 10c each; 3 for 25c; 10 for 75c; 100 for \$5.00.

America—Beautiful soft, flesh pink faintly tinged with lavender; much like the famous Cattleya Orchids. A magnificent cut-flower; it took the flower loving world by storm when first introduced and still holds first place among all Gladioli.

Cracker-Jack—A rich maroon. A fine strong growing variety and a good bloomer.

Independence—A brilliant rose pink, with richly marked throat, a long strong spike of wax-like flowers. One of the best.

Klondyke—A very early variety of dwarf habit. Pale yellow with maroon shading on lower petals.

Princes—Rich crimson, with white blotches across the lower petals. Flowers open wide and perfect, large size

Victory—Flowers medium size of delicate sulphur yellow, with darker shade in lower petals. Very attractive.

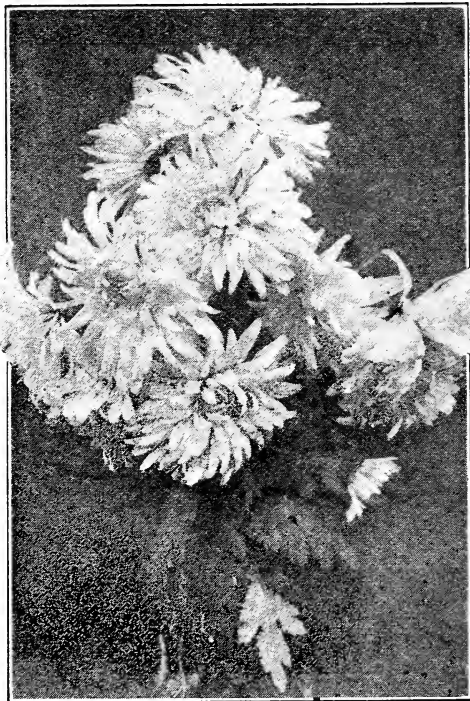

Gladioli Collections

In order to give our customers an opportunity to make their own collection of choice varieties of Gladioli they may select:

6 One of each variety for 45c By mail 53c

12 Two of each variety for 80c By mail 92c

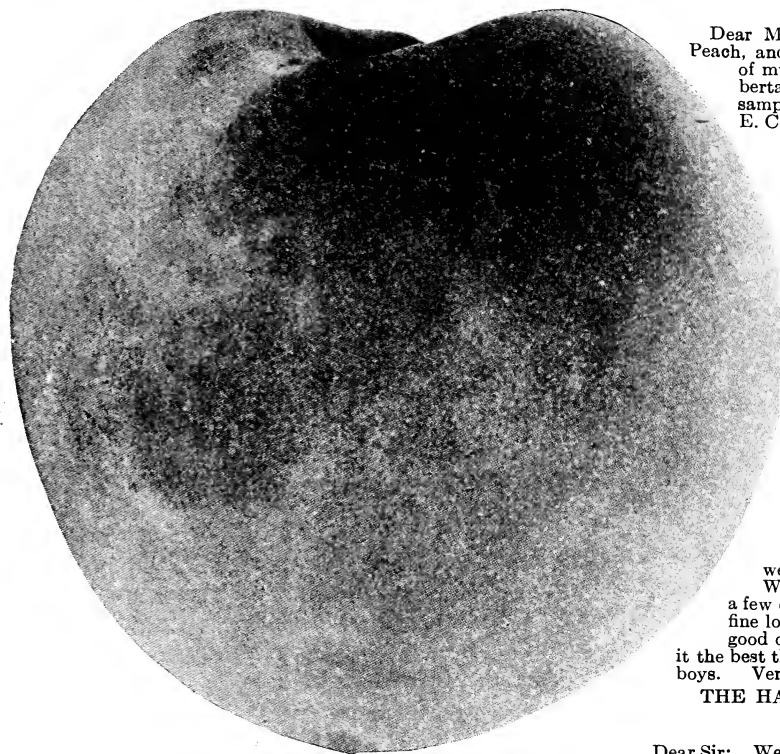

30 Five of each variety for \$1.80 By mail \$2.00

Pompon Chrysanthemums

Pompon Chrysanthemums are entirely hardy and live through the winter without protection. Whether planted in the garden or against walls, or as a border they are wonderfully effective, producing a wealth of bloom even after all the other flowers are destroyed by frost. We have them in the following colors: Red, White and Yellow. 20c each; 3 (one of each color) 50c; 10 for \$1.50.

"Dr. Worcester"—The 20th Century Peach

"Dr. Worcester" "The 20th Century Peach"

"Dr. Worcester" Peach is of very large size, averaging from 8½ oz., to 10 oz. Six Peaches weighed 3 lbs., 2½ oz. Fruit is of good color; flesh is yellow, firm and very juicy. The flavor of the "DR. WORCESTER" PEACH, is its chief merit. It is rich and sugary with a full Peach flavor. *An old gentleman said: "It tastes just like the old-fashioned Crawford that I used to get when I was on the farm."* Fruit Growers, who sampled this new Peach, pronounced it the best they ever tasted. The skin is not as thick as that of the Elberta, but is firm, making it a good shipper; it is also a good keeper. These qualities combine to make the "DR. WORCESTER" PEACH a most valuable commercial sort. The tree is a healthy, vigorous grower, and a good bearer. It is hardy and a late bloomer. (SEE BACK COVER)

Price, \$1.00 each; \$10.00 per dozen.

We sell all "Dr. Worcester" Peaches under a special guarantee seal that is affixed to each tree or bundle of trees. We have the exclusive sale of the "Dr. Worcester" Peach.

Rochester, N. Y., Nov. 12, 1917.

My dear Mr. Wood: The "Dr. Worcester" Peaches which you sent me were sampled by the heads of the different departments of our Seed and Nursery establishment and all pronounced them the best and most delicious they have ever tasted. Apparently you have something in the Peach line extra good and worthy of introduction. Yours very truly, CHAS. H. VICK.

Mr. Vick is President of the James Vick's Seed Co.

Penn Yan, N. Y., Oct. 10, 1917.

Dear Mr. Wood: I have sampled the Peach, and pronounce it very good. It is of much better quality than the Elberta. Thanking you for letting me sample it, I remain, Very truly yours, E. C. GILLET, Sec'y of New York State Fruit Grower's Assn.

Rochester, N. Y., Nov. 10, 1917.

Dear Sir: I had the pleasure of sampling your new Peach "Dr. Worcester" and consider it one of the finest Peaches I ever tasted. Not only has the Peach a fine flavor, good size, and a free stone, but the meat is very solid and the skin firm enough to make it a good shipper. That is something many of our very good Peaches lack. In the "Dr. Worcester" Peach I think you have something that will soon lead all others in demand. Yours truly,

ROBERT LOVE.

Rochester, N. Y., Oct. 12, 1917.

Dear Sir: As per your request we give you our opinion of the "Dr. Worcester" Peach that you gave us a few days ago. We consider it a very fine looking Peach and an exceptionally good one in quality, in fact, we consider it the best that we have eaten since we were boys. Very truly yours,

THE HAWKS NURSERY COMPANY.

Sodus, N. Y., Oct. 10, 1917.

Dear Sir: We have your favor of October 9th, also the Peach which you call the "Dr. Worcester". We sampled it and it is not only a fine looking Peach, but has an excellent flavor. Yours truly, B. J. CASE, Fruit Grower.

Brighton Station, Rochester, N. Y., Oct. 11, 1917.

Dear Sir: Your letter of the 9th and the "Dr. Worcester" Peaches reached me yesterday. I think they are the finest Peaches I ever tasted. They are very solid and firm and should be a good shipping Peach. Their flavor is far superior to the Elberta. I hope some day to be able to see this Peach in bearing as it looks mighty good to me. Thanking you for the sample, I remain Yours very truly,

EMERSON A. BABCOCK, Fruit Grower.

N. Y. C. & H. R. R. R. Commissary, New York City.

Oct. 20, 1917.

Dear Sir: I have sampled the "Dr. Worcester" Peach and can only express my opinion by saying that it is unexcelled in its line. It combines a luxuriant juice and an appetizing flavor that I have never tasted in any other Peach. Wishing you success, I am yours very truly,

CHAS. EATON.

San Francisco, Cal., Oct. 18, 1915.

Dr. J. W. Worcester,
Middletown, N. Y.

My dear Doctor: I received the sample of "Dr. Worcester" Peaches just before leaving the east for here. I divided with some of my neighbors and we all pronounced them the most delicious Peaches we ever had the pleasure of tasting. Surely some one ought to bud and sell the trees. Thanking you, I am yours very truly, CHAS. G. PORTER.

Mr. Porter is Superintendent of the Fruit Dept. at the New York State Fairs.

Rochester, N. Y., Oct. 16, 1917.

Dear Sir: The sample of your new Peach, "Dr. Worcester", which you showed us and which we sampled in our office recently, seems to be a fine acquisition to the list of Peaches. It was of good size and the flesh was yellow and firm indicating that it would stand shipping. It was also a perfect free-stone. From all we hear we think that it will be a Peach worth while cultivating. Yours truly, C. M. HOOKER & SONS, Fruit Growers.

Allen L. Wood, Woodlawn Nurseries
Rochester, N. Y.

"Dr. Worcester"—The 20th Century Peach

HISTORY OF THE "DR. WORCESTER" PEACH

In the Fall of 1890 *Dr. Worcester of Middletown, N. Y.*, planted a bed of choice peach pits which he gathered from various sources. In 1892 he transplanted several of the strongest seedlings and in 1895, when these seedlings commenced to bear, all but one were cling-stones. *On one of the trees he found several yellow and crimson peaches of enormous size and great beauty which were perfect free-stones. In 1896 this tree was heavily loaded with very large, beautiful peaches.*

In 1897 *Dr. Worcester* sent two peaches to Mr. Chas. A. Green of Rochester, N. Y. Mr. Green's response was as follows:

"Thanks for the two peaches, which are, indeed, *very large, very beautiful and of fine quality.*"

Mr. Green requested Dr. Worcester to send him the history of this peach.

In 1898 *Dr. Worcester* sent a basket of his seedling peaches to the *American Institute of New York* and they were so well pleased with them that they sent the doctor a Certificate of Merit.

Up to this time *Dr. Worcester* had only the original tree. In August 1899 he budded several trees to make a thorough test of this peach and continued to bud some each year.

My attention was called to this wonderful *Peach* in 1915 and for two seasons I went to see the trees while they were in bearing. The *size and high quality of the fruit* so greatly impressed me that I persuaded Dr. Worcester to permit me to bud it and offer it to the public.

Allen L. Wood, Woodlawn Nurseries
Rochester, N. Y.

WOODLAWN NURSERIES

Barberry Thunbergii Hedge

Barberry Thunbergii—Dwarf growing; foliage, rich bright green which takes on a brilliant red color in autumn. Red berries also appear at that time. It is perfectly hardy, easily transplanted, and free from insects. Very ornamental and as attractive in winter as in summer.

	Each	Ten	Hundred
15 to 18 in.	20c	\$1.25	\$ 8.00
18 to 24 in.	25c	1.50	10.00
2 to 3 ft.	30c	2.00	12.00

California Privet Hedge

California Privet—A rapid and vigorous grower. It has handsome glossy, oval-shaped leaves which remain on well into the winter. Very popular for ornamental hedges and trimmed specimens.

	Each	Ten	Hundred
15 to 18 in.	8c	\$.50	\$3.00
18 to 24 in.	10c	.75	4.00
2 to 3 ft.	15c	1.00	5.00
3 to 4 ft.	20c	1.25	6.00

EVERGREENS

American Arbor Vitae—Much used for hedges, screens, singly on lawns or in tubs for porches. A handsome little tree, and if allowed to grow naturally will be tall and pyramid-shaped. Can be trimmed and kept in any form and height. In summer the foliage is bright green above, yellowish beneath.

	Each	Ten	Hundred
18 to 24 in.	40c	\$3.00	\$25.00
2 to 3 ft.	50c	4.00	35.00

Mahonia (Holly-Leaved)—A native Evergreen species, with waxy shining, prickly leaves and showy, bright yellow flowers in May succeeded by bluish berries. Its handsome deep green, in glossy foliage and neat habit render it very popular for decorative planting. 75c each.

Norway Spruce—Pyramidal in form, of rapid growth, and extremely hardy. Makes a beautiful ornament for the lawn when planted singly and when set out as a hedge or wind break cannot be beaten. Norway Spruce will grow as high as 25 feet.

	Each	Ten	Hundred
18 to 24 in.	40c	\$3.00	\$25.00
2 to 3 ft.	50c	4.00	35.00
3 to 4 ft.	60c	5.00	45.00
4 to 5 ft.	75c	6.50	60.00

Irish Juniper—A distinct and beautiful variety, of erect, dense, conical outline, resembling a pillar of green; very desirable. 2 ft., 75c each.

TREES AND PLANTS BY PARCEL POST

Only smallish trees can be sent by parcel post.

Do Not Order Varieties Not Named in the following List.

On orders for fruit trees by parcel post, we reserve the right to substitute other good varieties of a like season if we are sold out of a variety called for.
